

**MINUTES OF THE 48TH ANNUAL GENERAL MEETING HELD ON  
WEDNESDAY THE 30TH OF JUNE 2023 AT 5.00 PM  
AT THE KGA CLUB HOUSE**

**KARNATAKA GOLF ASSOCIATION**  
**No.1, Golf Avenue, Kodihalli, Bangalore – 560008.**

**MINUTES OF THE 48<sup>TH</sup> ANNUAL GENERAL MEETING HELD AT  
5.00 PM ON FRIDAY, 30<sup>TH</sup> JUNE 2022 AT THE KGA CLUB HOUSE**

The President extended a warm welcome to all the members who were present in the meeting and said that a requisite quorum of more than 150 was present in the meeting hall. He thanked all the members present and brought the meeting to order.

The Attendance at the AGM was **1372** as per the list enclosed in **Annexure ‘A’**.

The President requested the Hon. Secretary to read the notice of the Annual General Meeting.

The Hon. Secretary read out the Notice of the Meeting.

Notice is hereby given that the 48<sup>th</sup> Annual General Meeting of the Karnataka Golf Association will be held on **Friday, 30<sup>th</sup> June 2022 at 5.00 PM** at the KGA Club House to transact the following agenda:

**AGENDA**

1. To confirm the Minutes of the following:
  - (a) 47<sup>th</sup> Annual General Meeting held on 29<sup>th</sup> June 2022.
  - (b) Special General Meeting held on 29<sup>th</sup> October 2022.
  - (c) Special General Meeting held on 10<sup>th</sup> March 2023.
2. To adopt the Annual Report of the Committee.
3. To adopt the Balance Sheet, Income and Expenditure Statement and Auditors Report for the period ended 31<sup>st</sup> March 2023.
4. To appoint Auditor to hold office for the ensuing year with their remuneration.
5. Other resolutions, if any.
6. To elect the Managing Committee for the year

By Order of the Managing Committee,

Sd/-

**Adith Kumar Bhandari**  
**Hon. Secretary**

Date: 03-06-2023

Place: Bangalore

President said Thank you, Mr. Bhandari

President extended a warm welcome to all the members present to the 48<sup>th</sup> Annual General Meeting.

## **OBITUARY**

With regret, he announced the demise of the following members of the club since the last AGM:

- (1) MR. DAVID VASNAIK
- (2) MR. REDDY R.G.
- (3) MR. KATTI. B. M.
- (4) COL. BASIL HOBKIRK
- (5) MR. PARANJYOTHI. G. S.
- (6) CDR. VINOD KUMAR GAWRI
- (7) MR. SADANANDA SHETTY. K.
- (8) MR. KOTRESH KUDARIMOTI
- (9) MR. SHIVANA GOWDA. B., IFS
- (10) MR. PRABHU. N. D.
- (11) MR. DAYANAND. B. L. G.
- (12) MR. CHANDRASHEKAR. C. K.
- (13) MR. PURNACHANDRA RAO. K.
- (14) DR. SHASHIDHAR. B. D.
- (15) MR. GAUTAM. S.
- (16) MR. HANUMANTHU. V. S.
- (17) DR. MUDDAYA. K. A.
- (18) MR. BAILY. V. SADANAND
- (19) MR. VELAYUDHAN. A. P.
- (20) MR. JAGADISH HINDUJA
- (21) CAPT. DASHARATHY DAYAKAR
- (22) MR. VIKRAM KIRLOSKAR
- (23) MR. ARJUN RAMESH
- (24) MR. MANISH SHIVARAM HEGDE
- (25) MR. SHANTHARAM. K. G.
- (26) MRS. SHOBHA ACHPAL
- (27) MRS. RUKMINI SRINIVASAN
- (28) MRS. SAGARIE MUTHANNA
- (29) MRS. USHA REDDY
- (30) MRS. SUNITA AHUJA
- (31) MR. RAO. H. T.

- (32) MRS. NARMADHA KRISHNASWAMY
- (33) MR. BHUJANG SHETTY. K.
- (34) MR. BITTIANDA ANANTH SOMAIAH
- (35) MR. V. P. MAHENDRA
- (36) MR. PATANKAR. G. B.

He requested all the members present to stand up and observe a minute's silence as a mark of respect to the departed souls.

He thanked the members.

### **Appointment of Chief Teller and Tellers:**

President said we would like to appoint the Chief Tellers and Tellers at this point.

The Managing Committee has proposed Mr. Madhav Rao. A, INDM035 as Chief Teller for the conduct of AGM and Elections for 2023-2024. I request the General Body to approve the appointment of Chief Teller by show of hands.

President said Thank you.

**Tellers:** He also read out the names of Tellers who have been appointed by the Chief Teller and requested the Tellers to stand up when their names are read out:

- |                                |   |         |
|--------------------------------|---|---------|
| 1. MR. VIVEK BATHIJA           | - | INDB107 |
| 2. MR. PRASAN BHAT             | - | INDB143 |
| 3. MR. AJAY PAUL               | - | INDP073 |
| 4. MR. AVINASH GIRI            | - | INDA081 |
| 5. MR. GREGORY DAVID DSILVA    | - | INDD083 |
| 6. MR. RAMACHANDRAN VELLORE    | - | INDR457 |
| 7. MR. GOURI SHANKAR           | - | INDG210 |
| 8. MR. ANAND VENKATESWARA IYER | - | INDI015 |
| 9. MR. PRITHVI PADMANABHAN     | - | INDP259 |
| 10. MR. MAHESH C KISHINANI     | - | INDK216 |
| 11. MR. JOHN SERRAO. A         | - | INDS290 |
| 12. MR. SANJAY SRIDHAR         | - | INDS912 |
| 13. MR. KARAN MALIK            | - | INDM305 |
| 14. MR. PETER RODRIGUES        | - | INDR099 |

President sought the concurrence of the August Body to the appointment of other Tellers by show of hands.

**The General Body approved the appointment of Chief Teller and Tellers unanimously.**

Proposed by: Mr. Nandan Heblikar, INDH019

Seconded by: Mr. K. Chandraprakash, INDC007

The President said the empty Ballot Boxes were sealed in the presence of the Chief Electoral Officer, Members of the Electoral Committee on Thursday, 29<sup>th</sup> June 2023, the Chief Teller, and Candidates, and handed over the keys of the Ballot Boxes to Chief Electoral Officer.

And this time, I would also like to thank Col. Ravi Shanmugam, Mr. Shankar Poti, and Mr. Pramod Kurian who is not in town, but I would like to thank them all for the hard work they put in over the last few weeks in helping us with this Election Process. So, I would like the members to give them a round of applause, please.

**Members applauded the Chief Electoral Officer and Members of the Electoral Committee.**

### **President's Speech**

Ladies and Gentlemen,

Good evening once again!

On behalf of the Managing Committee, I welcome you all to the 48<sup>th</sup> Annual General Meeting of the Karnataka Golf Association.

I would like to begin by saying that it has been a great privilege for me to have been given the opportunity to serve as President of the Karnataka Golf Association.

Looking back on the past 12 months, it has been an exceptionally busy year. We have had to deal with a rapid succession of important events and situations, many of which are still unfolding and will culminate on September 3<sup>rd</sup>, 2023. Indeed, for me personally, it has been a most eventful period throughout, at times challenging, but overall, a most rewarding experience.

Today, it is not my intention to highlight a lot of what has happened in the past, but I will briefly talk to you a little bit. We are getting closer to our Golden Jubilee Celebrations which will end on September 03, 2023.

1. I would like to thank the Golden Jubilee Committee of Mr. S. Shanmugam, Mr. Anil Kumar Bhandari and Dr. Sanjay J. Rao who have helped us during this period.

2. The 50<sup>th</sup> year's Annual Celebration as I said will end on September 03, 2023. We have also, as I always mentioned earlier in the last SGM that we will not touch the club funds. We have been able to raise a large amount of sponsorship, and this has covered all our tournaments and the entertainment programmes that we had across the year.
3. We have also, as per the Resolutions passed in earlier SGM, we have started the Golf Foundation and through which we have supported some other Ladies Golfers plus Budding Golfers who are from KGA. One of our shining stars has been Ms. Avani Prashanth.
4. In terms of our Digital KGA Project - We have completed Phase 1 & Phase 2.
  - Phase - 1: Workshops and interviews, Identification of pain points, Scoring of how our business functions and applications.
  - Phase - 2: was the GAP Analysis at the Club and Member Survey and Industry Research Recommendations and Initiatives.

Now this will be taken forward by the Incoming Committee, and the Last Phase is Phase-3 which will be done by them.

1. We have had G-20 Golf and Dinner here at KGA, we played host to a lot of the Energy Heads of different Companies across the World who participated in a golf tournament, and it was followed by dinner.
2. We have a New Club House Committee which is headed by Mr. Dinesh Reddy and Mr. Sanjay Sridhar and had Mr. Shashi Kumar Shetty, but unfortunately, as he has been made the Advocate General of the State of Karnataka, he had to withdraw his nomination from the New Club House Committee. We have spoken with the Government, and they have asked us to make a Blueprint of what we would like to do, so that has been done and the Incoming Committee will take it forward with the Government.
3. We have created a Fixed Asset Register which has all our assets in the club have been completed. The new Committee will move that part into software based on the recommendations of Deloitte who has been hired by us to study our IT needs.
4. **New Golf Course Committee (NGCC):**  
We also have the New Golf Course Committee, which was appointed by the Special General Body, consisting of three members Mr. M.S. Siddaraj, Mr. Nandan Heblikar and Mr. B. N. S. Reddy to investigate the possibilities of having one more Golf Course to ease the pressure on this Course.

The Committee received 11 (eleven) offers from Landowners and Intermediaries and an Express of Interest has been issued to these Landowners and Intermediaries. Upon scrutiny of the same, they were called for initial discussions to understand

their point of view. Most of the offers were for outright sale and a few were for joint ventures.

The Committee is also considering making some immediate short-term arrangements to ease the pressure on our existing KGA Course.

**5. The Proposal that has comes through Mr. S Shanmugam, A Founder Member:**

We have received a proposal from Dr. Thomas Chandy, who was a former President of the Bangalore Club. He has 160 acres of land on Kanakapura Road, which is roughly about 3 km from the Art of Living Foundation if I am not mistaken, the metro lane is going to be completed and it will end near the Art of Living Foundation, and he is willing to give 130 acres towards a golf course.

I understand from Dr. Thomas Chandy that both Pacific Coast. Mr. Howard Swan had visited this location a few years back and indicated that it was a good option for developing a Golf Course.

I request the incoming Managing Committee, the NGCC, and Mr. S. Shanmugam to take this forward and check on the feasibility with financial experts on the same.

**6. Callaway Performance Centre -**

We have also set up a Callaway Performance Centre which is the First of its kind in Asia. And the only thing from the KGA was the two Bays that were given to Callaway. The total expenses incurred in terms of the building as well as equipment, etc., have been borne by Callaway itself.

**7. Purple Academy –**

We have also set up the Purple Academy – which is a partnership with Enable India to train golfers with visual impairments and the aim is to get someone from KGA to learn golf to get someone from KGA or Karnataka to participate in the Paralympics.

In the face of a crisis on September 02, the Committee has shown that whenever there is a unity of purpose and the strive for consensus, we have the capacity to act and address these situations in a timely and constructive manner. All members are aware that we were for a week or 10 days in September because of heavy rains and floods across the Golf Course and the flooding of the office.

Let me conclude on a note of thanks. I would like to, first, express my debt and gratitude to the members of the Committee - for the great teamwork and their invaluable support and advice throughout the year.

1. Most importantly, I would like to thank all our members and the stakeholders for the confidence and trust that you have placed on us the Committee, and it is our privilege and honour for us to have worked closely with all of you throughout the year.
2. And my sincere thanks also go out to all the KGA staff who have been very supportive and worked overtime during this Golden Jubilee Year.
3. Lastly, I would like to thank our Statutory Auditors who are here, Mr. Ashok Raghavan and Mr. Veeresh, and our Internal Auditors Mr. Sanketh, who is also here and helping us, in terms of streamlining our systems and procedures.

Thank you, Ladies and Gentlemen.

**Prithvi Raj Urs**  
**President**

## **INTRODUCTION OF THE CANDIDATES CONTESTING FOR ELECTIONS 2023-2024**

President said the names of the candidates who are contesting in the Elections to the Managing Committee for the year 2023-2024 will be called up now and requested the candidates to please stand up when their names are called. I also request all the Contestants to be present throughout the Annual General Meeting.

**Proposed by:** Mr. Sanjay V. Nadgouda

**Seconded by:** Mr. Sanjai A. Paul  
Dr. Sameer Hariani

He wishes the candidates all the very best.

President said I would request the candidates please be seated at their designated seats until the AGM is completed.

Gentlemen, before we start the proceedings of the Annual General Meeting, there is a request from some of the members to fix the time to start the voting; so, I am just putting a request to all of you is 6.30 pm alright or would you like at 6.00 pm.

The President said so we will start the voting process at 6.00 O'clock and it will be there till 9.00 O'clock. Then he said 6.30 pm. is it okay. Some of the members said by 6.30 pm it might not be possible to complete the entire proceedings of the AGM.

The Chief Teller Mr. Madhav Rao said Mr. President the meeting can proceed; nobody is saying the meeting must be curtailed. However, we generally allow voting to start at 06.00 pm and proceed till 09.00 pm unless somebody has any violent objections, please say so, otherwise, we will commence the voting at 06.00 pm as planned.

President announced the voting to start from 6 pm to 9 pm.

**The President informed the members that he will take up the listed Agenda for this meeting.**

I request the members to come to the podium and give your account number and name, kindly confine your talk to the topic under discussion and please be brief.

### **1. To confirm the Minutes of the following Meetings:**

#### **(a) 47<sup>th</sup> Annual General Meeting held on 29<sup>th</sup> June 2022:**

**Mr. M.S. Siddaraj, INDS041** – He said that we have presented the S & P Committee Report in the last General Body which has been recorded, discussed and approved. We made the recommendations in three stages, which has been recorded on page No.33

- 1) Where it involves some changes to the Byelaws, action has been taken to amend the Bye-Laws.
- 2) There are a few recommendations which require procedural changes that also has been done by the Committee.
- 3) We have also made recommendations to change four Rules in our Rule Book, but that has not been done. Is there any specific reason that it was a clear decision of the General Body and a unanimous decision that it must be done immediately within a month or two? Would you please clarify that?

Thank you, Gentlemen.

**President** said just a minute sir, I am getting the Report.

**Mr. M.S. Siddaraj** repeated - accepted and adopted the Systems and Procedures Committee Report unanimously. Also, it said on Page 33 that these are the steps, you

need to take within a period of one month because you know we and other Committee members had spent a lot of time on that which was also appreciated in the previous General Body Meeting and this is only to improve the existing systems and procedures whatever we have and this would have been brought in with more financial control and more accountability of the Managing Committee and other Committee members. So, I would request you to highlight what are the actions that you have taken on this.

**President** said, sir -

- 1) In terms of No.104, which is our recommendation, you are talking about that in your S & P Report, Page No.38.

**Mr. M.S. Siddaraj** said we are confirming the AGM proceedings, right?

**President** said sir let me share with you, a lot of these points that you had brought up to us we have shared with the Rules Revision Committee

**Mr. M.S. Siddaraj** said no that was not the mandate given to Managing Committee because the mandate clearly given is to you to see that you Amend the Rules within a period of the next two months, that was the mandate given by the General Body to the Incoming Committee i.e. you because that was the one which was Immediate Past President, he was Chairing the meeting at that time and he said that the next Committee will do this within a period of two months, that is what has been recorded here, that is what I am asking.

**President** said you are talking about the formation of Sub Committees.

**Mr. M.S. Siddaraj** said -

- 1) The formation of Sub Committees.
- 2) Change of Byelaws, few of them you have already done it.
- 3) Item No.2 on Page No.33, there are a few recommendations which involve the amendments to the Rules, as this will have to be approved by the SGM, you can direct the MC to bring it up in the next SGM, which may be done in a month, this has not been done; because you know Amendment to the Rules what we have suggested involved the following:
  - 1) Accountability of the Managing Committee.
  - 2) CFO to be a signatory for all the payments.
  - 3) Formation of a Staff Committee.
  - 4) The Conflict of Interest.These are the things which we have taken up and which have not been implemented.

**President** said -

- 1) Conflict of Interest – has been brought up here in this Committee.
- 2) Your recommendation that the third Signatory should be the “Chief Executive Officer / Chief Operating Officer” – it was felt by the Rules Revision Committee when we had discussed it, that it is not the right thing to do, primarily because the CEO’s come and go and the process of getting CEO’s signature approved by the respective banks would take at least a month. So, a lot of payments etc. would be held up. Hence having the third Signatory who is an employee will not lead to any accountability and hence it is better we do away with it. Let me explain sir, primarily the process of how our payment is made /payment is released is that once the Purchase Manager accepts that the job has been done and confirmed, he then, in turn, will share it with the Accounts Department who will verify everything, from the Accounts Department it goes to the COO/CEO who then verifies and puts his signature saying that ‘yes, payment can be made’ and only then does the Accounts Department make a cheque for either of the office bearers to sign the cheque.

**Mr. M.S. Siddaraj** said Mr. President fine, the point is well taken. I am only trying to only say that this was the direction given to you by the General Body. There is no discussion on that because once the decision is taken by the General Body, it is not one or two people sitting in the Committee to overrule what has already been decided.

**President** said one minute sir, let me point out to you also that once you submitted the Report, I can’t speak to the General Body as to whether they have read everything that was recommended. Though it is a recommendation, I am saying it is adopted, yes but whether it was checked as to all these things I can’t say that. But this very point was brought to the Rules Revision Committee, and they said no it is not a feasible thing; you were also seated in that meeting when they explained to you why it should not be done.

**Mr. M.S. Siddaraj** said I was able to convince them.

**President** said no sir, if you had convinced them, it would have been in the Rules. We would not have any issue in terms of bringing it to the General Body if you had convinced them. They will speak and tell you that they were not convinced.

**Mr. M.S. Siddaraj** said I am not here to argue about that - (1) I am only saying you should have followed the General Body’s decision; (2) If for any reason there were to be a difference of opinion in the Managing Committee, your responsibility to come back to the General Body either in SGM or so and so and explain to us what is happening, instead of me asking on the forum after one year.

**President** said that is the reason I am explaining to you why it is, regarding the Staff Committee we already have an HR Manual which is implemented already, sir.

**Rear Admiral Ajit Tiwari, INDT057** – He said on the same point, I only want to bring out that there were several points that we gave including having an independent staff committee and the CFO signing and recommendations on better financial management, etc., I won't go into the details even though I have the things listed out here. But you might have implemented some things. My request to the MC is that kindly look into it that can an ATR (Action Taken Report) be given on this Committee Report so that we are clear in our mind as to what you think, you can implement and what you cannot implement and let the General Body then take a call on it that we accept this, or we don't accept this. Now there is a lot of vagueness you know on this thing that I feel is not implemented at all and you feel that you have implemented it. So, this can be clarified by an ATR.

**President** said yes sure sir, we will do that.

**President** asked can we take that Minutes as confirmed.

**Mr. G.D. Bagri, INDB097** – He said Sir, the Minutes of the Meeting have been sent along with the ATR. In the ATR over 10 Pages covering various points which were raised by many members, including for me there were 5 or 6 points which are in page No. 5 of the ATR.

There were six points raised by me and they are in the ATR and out of that three have not been implemented or answered, I will consider the minutes to be adopted only after the ATR points are clarified. Page 5 of ATR covers my points; Points No. 9.4, 9.5, and 9.6 have not been addressed at all and I am talking about these points for long last four to five years.

**President** said sure sir, a point noted, we will take it that the last AGM proceedings will be confirmed once these points are incorporated and addressed.

**Mr. G.D. Bagri** said these are the action points; these are supposed to be part of our Annual Report, I wrote to the Committee on the 30<sup>th</sup> of May 2023 giving them an advance reminder that these are the points covered in the ATR, please make sure that you are including these items in your Annual Report. That has not been done, so what is the explanation for that, I would like to understand that.

**Point No. 9.4** is about the Budget and the comparison of the Budget with the Actuals. In fact, this Committee has not presented a proper budget itself, three revisions we

have done, and the final budget came out on November 20, 2022. You cannot compare even your last budget with the actuals. But I still would like to hear from you.

**Point No. 9.5** is the MC CAPEX expenditures, the comment was given by the IPP and then President was this is a very valid point, and going forward we will put it on the Notice Board each time there is an MC CAPEX expenditure. The details of MC's CAPEX expenditure there automatically be there in the Annual Report; is neither on the Notice Board nor in the Annual Report. Not a word has been spoken about the Capital expenditure, their status, what is pending, how much amount is still open and are we going to carry them forward or we are going to close them here itself.

**Fixed Asset Register** - The next one was about the Fixed Asset Register, there is a commitment here, that the fixed Asset Register is in progress and within one month, it will be completed which was supposed to be July 2022, even today also the Fixed Asset Register is not completed.

**President** said sir, I just interrupt you, one minute. I have mentioned in my speech that the Fixed Asset Register has been completed, it is in an Excel Sheet, and that as I said we are waiting for software from Deloitte so that this can be moved into that.

**Mr. G.D. Bagri** said Sir July 2022 it was supposed to be done, which means one month in advance there was a commitment made by the then President that we are already done, and in another one month it will be shared; one year down the line, we are still talking about it.

**President** said sir as I said it is completed.

**Mr. G.D. Bagri** said OKAY, you please address the other two points that are in the queue.

**President** said sir can I just add one point as you said about the Fixed Asset Register, the reason probably taking so long also is that we have a lot of consumables that have been (I am talking about the past) added to this, and a lot of bills are missing. So that is why it has taken a little time to tally the whole thing and bring it together. However, as I said it is completed and the details are available in the office.

**Mr. G.D. Bagri** said Mr. President we are talking about the Fixed Asset Register. To the best of my knowledge, consumables are not Fixed Assets.

**President** said sir you are not understanding what I said. I said that it was added to the Fixed Asset Register of the past and hence, it took a little time in terms of taking it out. We have not added the consumables to this Fixed Asset Register.

**Mr. G.D. Bagri** said should the General Body understand that the Fixed Asset Register is in its place, and henceforth this will not be an issue.

**President** said sir that is what I have said it is done, it is in Excel Sheet as I said in my speech it must be moved to a software. Deloitte will suggest software to which we can move it so that asset tagging and everything is done properly.

**Mr. G.D. Bagri** said could you give us the CAPEX also which is remaining pending and is not indicated in the Annual Report either.

**President** said sure. Can we move on, I will give it to you during the next 15 to 20 minutes.

**Mr. G.D. Bagri** said the first point which was there from my ATR was about the Budget. Comparison of the Actuals v/s the Budget which is the requirement of our Rule Book also. But I am talking about it for four years, it started, and it is in the Balance Sheet when you were the Treasurer and today you are the President, and this cannot be implemented.

**President** said sorry sir, can you please repeat what you have said.

**Mr. G.D. Bagri** said I have said the Budget v/s Actual was implemented when you were the Treasurer, in that year we brought it in the balance sheet. After that it is born of, today you are the President this should have to be reintroduced, instead of that there is no answer on this subject itself and this is part of the ATR and discussed in the last AGM too.

**President** said I will just answer your first question which you have said - one is in terms of the CAPEX, which is a total amount of Rs.1.99 crore of which, there is a remaining Rs.10.00 lakhs in our Capex Budget. Now typically, this does not get carried forward to the new Committee; the new Committee will have to start fresh in terms of the Capex.

**Mr. G.D. Bagri** said I agree with you. But should not the General Body be privileged to know where and all this Rs.1.89 crore has been spent? Should not that be indicated in our Annual Report; Should not that be a part of the Committee Report, that this is what has been done? Why we are being kept vague about this kind of expenditure?

**President** said one minute sir, it is there in the Asset Register sir. It is mentioned there.

**Mr. G.D. Bagri** said the Asset Register is there, but I am not interested in this Asset Register. Everybody cannot understand and everybody cannot go through it. But if you give us a condensed version where Rs.1.89 crores have been spent, members will understand it much better.

**President** said sure, going forward to we will ensure it is there, but as I said, it is there sir. It is not that we are not trying to hide anything, it is there.

**Mr. G.D. Bagri** said it is not a question of hiding; it is not revealing certain things which have been agreed upon with the General Body. It is a kind of defying the General Body.

**President** said we are not defying the General Body, sir, as I said it is there.

**Mr. G.D. Bagri** said I know; nobody has taken the money home; assets have been purchased. Here also talk about which are these 5 or 20 Assets that have been purchased. Do you have details of those Assets? Even today can you also share it with us? I am interested in knowing where the money has gone.

**President** said sure sir, we will put it up on the Notice Board sir.

**Mr. G.D. Bagri** said fair enough, so this will be put up on the Notice Board as far as MC CAPEX expenditure is concerned.

**President** said let us say for the current Committee and not the Incoming Committee.

**Mr. G.D. Bagri** said I did not get you.

**President** said for the existing 2022-23

**Mr. G.D. Bagri** said yes it will be put across where the expenditure has been made. What about the Budget v/s actuals for 2022-2023; did you get a review on that?

**President** said yes that will also be put up on the Notice Board.

**Mr. G.D. Bagri** asked if we can have the cut-off date for these two pieces of information to go on to the Notice Board and if it can be emailed to the members also, please.

**President** said sure we can do that.

**Mr. G.D. Bagri** asked can we have a cut-off date for both things.

**President** said when the New Committee will take charge of office from that day 30 days are required to put the information on the Notice Board.

**Mr. G.D. Bagri** asked what for sir, this is ready information is there, why one month. I am okay with one month also.

**President** said sure, the new Committee take it forward, let us give it a maximum of one month sir.

**Mr. G.D. Bagri** said you will be the IPP, you will have to drive it and make sure that it is there by 31<sup>st</sup> of July 2023, and both the information is communicated to the members.

**President** said yes sir.

**Mr. G.D. Bagri** said thank you.

**President** said can we take this with the following modification that has been raised.

**The Minutes of the 47<sup>th</sup> Annual General Meeting held on 29<sup>th</sup> June 2022 have been confirmed and adopted with the modification that the Actuals Vs. Budget statement and the CAPEX expenditure for 2022-23 will be put up on the Notice Board within a month's time i.e., by 31<sup>st</sup> July 2023.**

**Proposed by: Mr. H.A. Gopinath, INDG117**

**Seconded by: Mr. George Pearson, INDP151**

**(b) Special General Meeting held on 29<sup>th</sup> October 2022 -**

The Minutes of the meeting have been circulated. Requested members to confirm the minutes.

**The Minutes of the Special General Meeting held on 29<sup>th</sup> October 2022 have been confirmed and adopted.**

**Proposed by: Mr. G D Bagri, INDB097**

**Seconded by: Mr. M. S Siddaraj, INDS041**

**(c) Special General Meeting held on 10<sup>th</sup> March 2023 –**

The Minutes have been circulated, as you all are aware it is a truncated meeting. So, there is not much of a discussion. So, can I take that as confirmed?

**The Minutes of the Special General Meeting held on 10<sup>th</sup> March 2023 have been confirmed and adopted.**

**Proposed by: Mr. Kishore Rao, INDK291**

**Seconded by: Mr. Nandan Heblikar, INDH019**

**2. To adopt the Annual Report of the Committee for the year 2022-2023.**

President said the Annual Report for the year 2022-2023 has already been circulated. I once again request the member to come to the podium and announce their name and account numbers prior to the discussion.

The Floor is open for discussion.

**Mr. B N S Reddy, INDR215** - Respected President and all the Managing Committee Members, the Honorable Members, Ladies and Gentlemen -

Please refer to Page No.19, this is a Report of the Immediate Past President. Dr. M.G. Bhat has been my friend and with no malice to him. I don't want to hurt his feelings, what is surprising is that we have been receiving the Annual General Body Report for the last, more than 30/35 years and this is the first time I am seeing the message from the Immediate Past President. You should know one thing (i) it is not in good taste, (ii) the Immediate Past President is only a guiding force to the Managing Committee for continuity. If there is any information which they want from the previous Committee he is there to help it and as per the Rules of the Club, the Immediate Past President does not have a vote in any of the meetings. ... **interrupted by the President ...** and said IPP does have a Vote in the MC Meetings.

**Mr. BNS Reddy** continued and said no he does not have a Vote. With that being the case, here that report says, the members should send positive feedback for strengthening the MC rather than the constant criticisms. I would like to know - (i) who is doing the constant criticism, criticism is part of life, it is a part of growing up; without criticism no Committee can function, or no organization will ever prosper without criticism.

... **interrupted by the President ...** and said constructive criticism, sir.

**Mr. BNS Reddy** continued and said it is written criticism. So, every organization will prosper and will go forward with constructive criticism, criticism is part of life. And what I don't understand is why you don't say we welcome criticism. We want to grow; this is not all right. (ii) It does not bear well for members to gossip. I did not understand who is gossiping and where they are gossiping, how they are gossiping, and why should be printed in the Book. It is like you know in the smaller areas where there are 'katte' there LADIES SIT THERE AND GOSSIP know that kind of a report this is not correct, this is addressed to all of us.

... **interrupted by the President ...** AND SAID SIR IT IS DEROGATORY TO SAY ONLY LADY'S GOSSIP. YOU CANNOT SAY THAT ONLY LADY'S GOSSIP, THAT IS A DEROGATORY TERM, SIR.

**Mr. BNS Reddy** continued and said I agree.

... **interrupted by the President** ...and said you are an M.A. in Literature, and you should know that.

**Mr. BNS Reddy** continued and said it is very sad to see recent SGM was cancelled due to criticism by few members. This has happened in my tenure also, few members mean, in fact, the last SGM was cancelled or adjourned, or postponed because most members said 'No'. It is not because a few members ... **interrupted by the President** ...and said sir it is written there, everyone can read what is written there, you need not go point by point, let me answer you.

**Mr. BNS Reddy** continued and said then those who wish to be members of the MC must be committed to serving the members of the club rather than having a self-agenda. I want to know whether during Dr. Bhat's time, anybody had a self-Agenda, or during this Committee anybody had a self-Agenda, or the Incoming Committee anybody has got a self-Agenda, otherwise we should withdraw this.

**President** said sir we are not saying anyone had a personal-agenda, we are saying if you want to serve it would be in the interest of the club not to have a personal-Agenda.

**Mr. BNS Reddy** said the Present Management Committee has solved all the financial issues, which is again not correct. So as a member of this club, as a senior member, who has been a member for the last century, I would urge this is not in good taste, and with all due respect Dr. Bhat who is my good friend and this shall not be continued and this report, whatever this message should be withdrawn, that is my request.

**President** said sir this is only because this is our Golden Jubilee Year, we did this change in our report.

**President** said no we will not withdraw till we take a Vote, sir.

**Mr. Harish Kumar Shetty, INDS234** - Good evening Mr. President. The agenda under discussion is the Annual Report of the Committee. In the Balance Sheet, I don't find any Annual Report by the Committee. I find a lot of Individual Reports and opinions given by individual members of the Committee which is not a representation of the Report of the Managing Committee. This is the 47<sup>th</sup> AGM and we had gone through the 46<sup>th</sup> AGM, there is a custom and there is a procedure, and the Annual General Body Meeting is considered as one of the Statutory Compliance requirements in the Annual Calendar of Events of an institution. In this, the report must be presented by the Secretary duly approved by the Managing Committee of the key activities done by the Committee during the year and in terms of compliance with various mandates and statutory commitments that are given. Just now the Senior Member Mr. Bagri pointed out a lot of deficiencies in terms of what was committed in the last AGM that has not at all been reported and has not been touched upon. Whereas a lot of people

have in the Managing committee, some people have done a great job, but everyone has been given a platform for self-glorification. I would use that word of self-glorification because if it is a club magazine, it is fine to have their report submitted and not as a part of the Annual Report. In an Annual Report some of the other highlights like Ms. Avani Prasanth or our Mr. Khalin Joshi, who has done well and who is going to represent the Country in the Asian Games, I would have been happier to put their photographs and highlight their achievements, of many of our kids who are doing so well in the National Scene instead of the photographs of the Committee Members being introduced for the first time for what reason, I am unable to understand and I would like to make one serious point here, that gives an undue favor to the specific persons who are in the Committee as against the people who are not part of the Committee and contesting for the Elections. This is not in the fairness of the things, and I find that Annual Report has not been circulated. Now to add to what Mr. B N S Reddy said about the Report by M.G. Bhat. Dr. M.G. Bhat is a very dear friend of mine and we have worked very closely together in the Committee. But the Report given by Dr. M.G. Bhat who has not been entrusted in any particular portfolio if you are talking about, any Committee Members Report, not the Annual Report of the Committee has commented on many general aspects and moral values and ethical things; he has also given clean chit and he has also appreciated the Accounts and certain portfolios which have made hefty losses; there are reports by the qualified Auditors on pending reconciliation of few things, so self-certification of saying that we have done up all the bad things of the past and cleaned up the balance sheet, cleaned up the statement of accounts, I think it is unwarranted and I would request Dr. M.G.Bhat to withdraw the statement himself about the report what he has given and I request the President to present the Annual Report of the Committee, not by the Committee Members. Thank you.

**Cdr. M.V. Raghavan, INDR180** – He said Mr. President, I draw your attention to Page No.15, the subject matter is Karnataka Golf Association and Golf Karnataka. This is something new, I am not sure, if the General Body is aware of what exactly it is and I would like you to throw some light on what is the relationship, what is our representation as of now, and you have already intimated that a process that was discussed in the Managing Committee was there should be two Office Bearers, two Past Presidents by order of seniority. I would suggest that it should be two office bearers, ex-officio rather than by name, and secondly, the two additional members should be any members of the General Body and not restricted to two past presidents by seniority and out of which, I would say one member should be one of the professional golfers who has achieved laurels for this Club, who should be part of this particular Committee. I would request you to kindly throw some light on the

relationship between Karnataka Golf Association and Golf Karnataka for the information of the General Body. Thank you.

**President** said Golf Karnataka is the Governing Body for Golf in the State of Karnataka, which is in turn affiliated to IGU (Indian Golf Union). This is as per the National Sports Code as all these associations in the state have been formed. Each State has different Golf Clubs; they in turn will work with Golf Karnataka to further their Golf Clubs as well as Games of Golf in the State of Karnataka. KGA is already a member of Golf Karnataka. We already have representation in the Golf Karnataka. Is that ok Commander?

**Mr. M.S. Siddaraj, INDS041** – He said again this is regarding the Annual Report. As I have understood the Annual Report is the Report on the performance of the Committee for that year. I have read that report and the report of the Office Bearers of the Managing Committee. It is surprising that nowhere in the report has mentioned or has been made regarding the operational losses we have incurred during this year, even the Treasurer who is the custodian of the club, at least in his report should have been more than forthcoming and saying that see this is what our financial performance is during this year. I did not see that anywhere else. That is the case probably because we have ended with an astronomical loss during this year. Probably I will take it up when I will come to the Accounts Part. Even the Committee Chairmen in their reports have read that I have just done that job, I have done this, I have done that, I have done this improvement yes fine, well taken, But none of them have said in the beginning of the year this is the budget I have given to the club to the Managing Committee that I will be performing within these constraints during my period as a Chairman. But most of them, correct me if I am wrong, have exceeded the budget many folds, but none of them again have said these are the following reasons why they have exceeded the budget. Is this the kind of financial discipline that we have? Mr. President the Golden Jubilee year, I have observed this new phenomenon as three of my previous Speakers have spoken about, Page No.19 Dr. Bhat's Report. I don't know whether this was volunteered by him or whether this Committee prevailed upon him to get a pat on their back. Because you know why I am raising this, it must be factual. I do not want to go point-wise because few of them have already said. I have two issues to talk about - (i) it was very sad to see the recent SGM being cancelled due to criticism by a few members. This is a very wrong statement. ... **interrupted by President** ...

**President** said sir can I just make one point; I have asked Dr. Bhat to withdraw his report and he has agreed to do that. So let us just move forward on this subject.

**Mr. M.S. Siddaraj** said thank you, Gentlemen, thank you very much, that is a nice gesture on the part of Dr. Bhat.

**Cdr. M.V. Raghavan** said you have not answered my second query regarding representation. I proposed that it should be two Office Bearers Ex-officio and two members of the General Body.

**President** said sir we will follow the National Sports Code and I am sure the Incoming Committee will make the recommendations in the next meeting and inform the members as to how the KGA is going to be represented in Golf Karnataka.

**Cdr. M.V. Raghavan** said thank you.

**President** said thank you, sir.

**Mr. R. Dhirendra, INDD089** - Good evening, I would like to draw the attention of the General Body to Page No. 24 of the Hon. Secretary's Report under Human Resources. There is a statement made there that visitor (non-members and staff are frisked by Security while entering and leaving the premises). Now Gentlemen if I had to go as a Visitor or am the staff, I would take a lot of offense to such statements, and I don't know why members are also not being frisked if there is something that is to be construed out of this. So, through you, I request that this passage also be withdrawn because I don't think it shows our club in good light. Thank you.

**President** said point taken sir, we will withdraw that.

**Mr. A. D. Mandana, INDM014** - Mr. President, by and large, you have done a good job during the year. We know how tough things are. You have gone through the grind, everything has gone well except there certainly have been a lot of red flags which I would like to point out, a few of them -

- (1) Of course, the New Club House, the new land that Mr. B.N.S. Reddy and Group are trying to find to relocate the excess of new members that you are going to get.
- (2) Court cases - Never-ending Court cases run into two pages, I don't know what the total is, but this is another thing.
- (3) Of course, the losses in each Department and the accumulated losses over the last two years are almost Rs.15.00 crores.
- (4) Finally, now KPL is a great Brand that is a great product that somebody has found. Of course, it has been good what they have done, excellent. But the point is that the entry fee is only Rs.3.00 lakhs per Team. This has got to be increased; I mean these are all Corporates running these things. This is like a mini club in our club, and they control the whole thing. So, I have a feeling that this is going to go up to Rs.50.00 lakhs per team. To make and get rid of all the losses that you are running in this institution.

**President** said sure sir; the incoming President and Captain will investigate this along with the Tournament Chairman.

**Mr. A. D Mandana** continued and said yes sir -

- (5) Finally, for the old age, you guys have forgotten the oldies. We don't have a cart path; the cars are parked somewhere in the lot. Now you have got to think of the older people who have brought up this club from what it was to what it is today. All these points have got to be studied by the Incoming Committee and I am sure they should do something to improve, a lot of people would like to have at least twice a week for the aged members who play Golf. So, these are some of the points I think that you will have to, the incoming committee will have to look at and give the oldies also a game here, not just.
- (6) Finally, to relocate all the new present members that you intend to take in the next year for different categories of people. I suggest you ask the Government to give you some other land and start moving all these people into the new clubhouse once they are recruited, not fill up this area, we have no parking place, we have no place to sit down, you have no bench to sit down and have your dinner. Think of it, you need more places, this place needs a lot of space. So that is what my things to the New Committee would be. Thank you.

**President** said thank you sir your points have been taken. The incoming President is right next to me, he will take this forward.

**Mr. Nandan Heblkar, INDH019** - Well, the Committee has done a fair job this year. However, I would like to call out the couple of Departments that have excelled –

- (1) F & B - First, I would like to call out F & B, I think the quality of food this year has been excellent. We all enjoyed the food at the KGA, but it is only a part of it, I will discuss it with you later.
- (2) Bar - You know with the surplus of Rs.6.70 crores, they are making only Rs.30,000/- profit, something very funny. I just cannot understand why we are making Rs.30,000/- profit. I am not the Balance Sheet Champion.

**President** said we will respond to that little later sir.

**Mr. Nandan Heblkar** asked if that will be taken up in the financials. okay then.

- (3) Tournament Department - I would also like to congratulate the Chairman of the Tournament, we had some wonderful tournaments, well done Mr. Sanjay Mathias.
- (4) Golf Course - Also the Golf Course which is in pristine condition. I have a point; on Page 37 you say our irrigation system is outdated and has reached the end of

its life and it is all for you to read. A sanction of Rs.1.16 crores in SGM on 29<sup>th</sup> October 2022, for the first phase of upgradation was approved, right Mr. President.

**President** said correct sir.

**Mr. Nandan Heblikar** continued and said see after having chosen a Vendor, a couple of other vendors come with lower quotations, that is the practice in the industry. Basically, the General Body has approved your amount, which means you should have done your homework and come to the General Body. Now you say after approval of Rs.1.16 crores cleared by the General Body, you are insulting the General Body, by saying that some other vendors have come with a lesser amount. Basically, if a Vendor 'A' gets a contract, the other guy who is not getting the contract would say, I would have done for 50% less. No, the General Body has cleared your amount, please go ahead with this installation, also you have taken the Consultation from Mr. Shoemaker, even in his report, we would have approved the same panel and same pumping system. I would like the President and the Incoming President to take it forward when his term comes because when a General Body has cleared, there is no point in again going back and saying it has not been done.

**Mr. Suresh Jois Chandrashekar, Captain** said to Mr. Nandan I want to clarify this. Please understand when we find the price is lower by 50%, the club is losing money, so every rupee counts, in our assessment, we thought it better to hire a Professional Consultant, rather than go by our MC decision, we are not irrigation experts. So, we found a good Consultant to hire, and we have done a complete study from A to Z on what is wrong with the whole irrigation system. Just by putting in some pumps and filters, we are not well irrigated. So, we need to do our comprehensive study, we know our irrigation in rough areas is not there, and this will be addressed too. So, all we have done, Mr. Hari Achanta and Me, we found the price less by 50%, that is why we stalled it and we are bringing it to the AGM Notice, that we must save money.

**Mr. Nandan Heblikar** said Mr. Captain, I agree, but why you did not do this exercise before coming to the General Body.

**Captain** said sir as we speak today, the existing irrigation system is working very well, and nothing has stopped. It still has more life to it. We have done a deep study and we will call the Consultant to meet the members of the club; the expert will explain what is wrong with the irrigation system and what is the life of that system and then we will take a call.

**Mr. Nandan Heblikar** said my question was, then how did you come to the General Body with Rs. 1.16 crores budget amount without doing your homework? This is done during your term.

**Captain** said it was proposed by the previous Committee, sir. When we took over, we did due diligence.

**Mr. Nandan Heblikar** said this was done during your term. It was proposed and approved on 29<sup>th</sup> October 2022. We all have it in black and white.

**Captain** said it was done by the previous committee. We have not proposed this sir. That is why we have stopped this project. If there are cost issues, we have to re-look at it, sir.

**Mr. Nandan Heblikar** said no sir, it is not like that. This is during your term, you have come out with the amount to the General Body and the General Body has approved it, you cannot say I do not know and now wash your hands off it.

**Captain** said that it was clarified sir, this was the project done before.

**Mr. Nandan Heblikar** said what I am advising is first please do your homework before coming to the General Body.

**Captain** said sir this was the project done before my committee, we have done our homework to reduce the cost.

**Mr. Nandan Heblikar** said then how did you come to the General Body.

**Captain** said I don't want to argue with this sir, let us move on sir.

**Mr. Nandan Heblikar** said no, I want the answer for it, that is not right. You can't waste the General Body's time. Thank you anyway.

**President** said thank you, sir.

**Mr. G.D. Bagri, INDB097** - I would like to first compliment the MC for the voluminous Annual Report which has come, and I would like to term it as our 2<sup>nd</sup> Coffee Table Book. The printing is excellent, but the contents are not. To start with, let me give you a few minor things which I observed which are contradicting the Committee Members each other. It started with Captain saying there were 1200 millimeters of rainfall in four days. The Course Chairman says 175 millimeters in two days, maybe another 1000 odd millimeters took place in the other two days, but what should have been reflected, I do not know.

Chairman Ladies Section says the lady's amateur golf tournaments had 140 participants, whereas the Tournament Chairman says there were  $120 + 39 = 159$

participants. Again, the Tournament Chairman refers to the SGM of 28<sup>th</sup> October, which was held on 29<sup>th</sup> of October. The Entertainment Chairman says there was a gate collection of Rs.75.00 lakhs and Rs.1.30 crores were the sponsorship, where the Department-wise figures say, it was Rs.1.70 crores only, there is a difference of Rs.35.00 lakhs. These variances do not make any direct impact, but the published data must be authentic, they need to be vetted before they are printed. I am putting my observations for you that such kinds of discrepancies should not happen in our Annual Report which is all times to come.

Now coming to a more serious subject which has a high variance. Take the membership data, which has been printed on Page No.12.

**President** said can I just answer one question of yours, the one point that you have raised in terms of entertainment? It is the combined number of the Golden Jubilee and Entertainment that figure.

**Mr. G.D. Bagri** said the explanation is not to be given to me and it has been given in the Report I have picked it up from there, so that's it. Now let us come to the Membership data which has been printed in the 48<sup>th</sup> Annual Report on Page No.12. We are talking about March 2022 data; I presume the March 2022 data was the same data that was printed in the March 2022 Balance Sheet. I find a tremendous amount of variation. Gentlemen I got a print of the March 2022 data here, in case the Balance Sheet is not available I can give you this print because I have noted down my numbers, okay? There is a variation in terms of Permanent Members, what is printed here is 1914 whereas in March 2022 we are already talking about 1971. We have the next one Permanent Service Members 381 printed this year, whereas last year it was 392; whereas Permanent Associates 343 printed here, which was printed 349 last year, the previous year. There will be depreciation of members or depreciation of members or so many have. So, you can't change the figure of 2022, you can change the figure of 2023, not 2022. Coming to the Permanent Service Associates, 46 printed as against 51, and Child of Members 936, as against 981.

**President** said sir can I make just one point on that. Last year in the Annual Report they took Member-Elects also; this year we have not included the Member-Elects until they are confirmed i.e., after 6 months. So, we have not taken Member-Elects this year.

**Mr. G.D. Bagri** said Mr. President if you change the Policy from last year to this year you must put a Footnote there, you need to clarify. If a person like me can pick up this information and ask, I wrote emails to all the Office Bearers, all four of them; that you are talking about the capitalization of Rs.14 crores towards the membership, whereas my computation comes to Rs.5.00 crores, where has the Rs.9.00 crore gone. One second sir, I will complete it out. Despite my repeated writing to the Committee till

yesterday I don't have clarity on how these discrepancies continue and remain, I have told them, I am going to take it on the floor, these discrepancies cannot be there, and I have to take the last years data from the last balance sheet and this year data from this year Balance sheet, and if there is no Note, I will consider last year data as valid data. I need clarification on why this was done like this.

**President** said sir we do not capitalize the amount until the Member-Elect is confirmed as a member and hence you are finding that difference.

**Mr. G.D. Bagri** asked why you did it last year.

**President** said as per the new accounting practices that we want to follow, that is why.

**Mr. G.D. Bagri** said sorry we can't accept it unless you have qualified it. Don't accept on the mike, not in the meeting; it should have been qualified in the Balance Sheet that this is how we have changed the process. You can't do it on the floor when somebody is raising the point, if I had not raised the point, nobody would have noticed this kind of difference there.

**President** said sir, there was an error last year as pointed out to you, it has been corrected this year, and this is as per the data on our system.

**Mr. G.D. Bagri** said, "I do not know what your system is, who controls it, who evaluates it, who is carrying it out. You print the data; I go by that data.

**President** said that is what I have shared with you sir, we have corrected this year, this data for March 2023 is corrected, it does not include the Members Elects and that is why the differences are there.

**Mr. G.D. Bagri** said there should have been a Note from the Management side, for the change of Policy which has been carried out.

**President** said your point has been taken, sir. We will look at doing that going forward.

**Mr. G.D. Bagri** said going forward which policy you are going to follow?

**President** said following the Policy in taking the correct data available to the members, sir.

**Mr. G.D. Bagri** said OKAY.

**Mr. K. Chandraprakash, INDC007** – He said earlier when Mr. Bagri had some queries you accepted that it will be put on the Notice Board within one month, so I request you do the same thing with the questions that he is asking so that the General Body's time is not wasted, and we proceed further.

**President** said thank you, sir.

**Mr. G.D. Bagri** said OKAY, fine.

**Mr. G.D. Bagri** said let me come to the next one. My questions to you are very limited

—

- 1) I requested you to issue an addendum for the Investment details as well as the Fixed Deposit details. The digital copy which was sent across to the members did not have any of this information. The printed copy has got the details of the Investment on the last page. Now this is a change from the digital copy to the physical copy. This is for the notice of the General Body that there is a change from the digital copy to the physical copy. I don't know whether only this is the change or is there any other change.
- 2) The Fixed Deposit details even through this route also were not publicized nor have been sent to the members as an addendum. So, this was another thing that has happened, I would like to understand why we hold back on such information, and I am going to come back on this topic again when we are discussing financials. I am telling you now itself. **President** said thank you.
- 3) The Investment Standing Committee, not Sub Committee, was supposed to be looking after Rs.200 crores out of our corpus. Now this Committee was formed, once again Mr. President you were the Treasurer at that time, and some of us assisted you in forming this Committee. This Committee is in place since then, there are certain basic norms that were written down; you were the first Chairman and the Captain was the second Chairman, and the current Hon Treasurer is the third Chairman. There are norms in this Standing Committee that (i) every second year the member will change, or he might get one more extension, but two members will change every year. Now, this Committee is having the same people continuing for the last five years. (ii) This Committee demands six members should be there. No plus, no minus; no five, no seven; it must be six. This year we have only four members on this Investment Committee, unfortunately, even though I pointed it out in October 2022, they have not bothered about it. The Investment Committee continues with four members, this club of 4000 members we can't find two additional members.

**President** said OKAY sir, we got your point, let me answer your point, sir, in terms of the investment committee concerned, yes, it was started when I was the Hon Treasurer. But as you know most of the investments were already done. The Investment Committee along with the Finance Committee has been meeting together. Now since most of the investments have already done and no new investments have been done, that is the primary purpose of not having to have the meetings or increase the number because we have already completed whatever investments we needed to make.

**Mr. G.D. Bagri** said good response. Yes, nothing was done in the previous year. This year you have encashed the mutual funds. This year you have invested further money. You have got a corpus of investment of Rs.49.07 crores to Rs.29.00 crores. How do you say that the new investment has not been done?

**President** said that was for the last year sir.

**Mr. G.D. Bagri** said that what I am talking about is 2022-2023 only. In 2022-2023, you have encashed the investment as well as you have made fresh investments., then how do you say there were no activities, without the Investment Committee meeting, how do you conclude that?

**Mr. Austin Roach, the Hon. Treasurer** said most of the meetings have been held on Zoom and the phone and taken cognizance of the fact, and yes two members were not taken. Let me explain to you, sir. Like Mr. C. N. Kumar has been here and there. So, we were taking advice from him here and Mr. Vishwanath Rao, who was on the Finance Committee. What happened two years ago was when I came to the finance dept, there was an outlook of fee on tax on complete interest income that was when I came it was an open house meeting we had on the first floor when you were all there, I asked for the money to be invested in bonds so that the taxation will be less here and not as such, LET ME FINISH IT PLEASE SIR. As I was new that I saw and I thought that we will save a lot of tax if we get that benefit of taxation by indexation, this was discussed personally with you and you also agreed, but you said Mr. Austin let us be cautious and limited to Rs.50.00 crores, and I will explain to you sir so that it will be useful to everybody. After that happened, when the new bill came from the Government, we found that there was no arbitration benefit there because we were not paying the tax on the top taxpayers list. The taxation and the income accruing from the interest from the FDs and these kinds of Bonds was almost the same and the reason was that we did invest the Rs.50.00 crores, and yes two members were common in both the Committees' sir.

**Mr. G.D. Bagri** said sir, there were no restrictions on you putting the members both here also and there also. Although when the Investment Standing Committee was formed, I was part of the Finance Sub Committee. Mr. F.R. Singhvi, I, and Mr. Prithviraj Urs are three of the key people who proposed these things. Mr. Harish Kumar Shetty was the President at that time, and we carried it to the SGM, I suggested it will not be appropriate to have the role in two places, so I stayed back in the Finance Sub Committee, and FR moved to the Investment Standing Committee. The issue is not that what we did is wrong. The issue is that the investment that has been made is not bad. My issue is if you come to the General Body, General Body approved this

investment standing committee, when you have the provision of 6 members, why do you restrict that from your side?

**Hon. Treasurer** said sir it is by oversight that had happened.

**Mr. G.D. Bagri** said by oversight after October when I was pointed out, when I have officially written to you, by oversight you have ignored me, and I will accept that. Despite my pointing it out, and despite my writing, you say, it is an oversight.

**Hon. Treasurer** said sir, by the time we had invested Rs.50.00 crores, as I said there were no additional funds to be done, so in my thinking, we did not do, henceforth I think, the next incoming Committee will take over and have six members to the Investment Standing Committee.

**Mr. G.D. Bagri** said my intension was only to bring this to the light and the General Body to know it, what is happening is well known and it can be carried forward, thank you very much.

**President** said sir I don't think that statement of 'well known' because there is nothing that has been done untoward or anything bad has been done.

**Mr. G.D. Bagri** said then why for five years you didn't change the Committee Members, which is the norm you had set.

**President** said we have been saying no, we have been transparent, and everything was done clean and the statement of yours is incorrect.

**Mr. G.D. Bagri** said Mr. President please note what I have said, I have not said anywhere, that whatever the action you have taken is poor or bad or disadvantages to the institution. All I am saying is the norms which you have set, you have not followed them, unfortunately, you are the Author of it and during your period only this has happened.

**President** said point taken sir, thank you.

President called Mr. Srinivas Murthy,

**Mr. B. Sreenivasa Murthy, INDM234** : He said now after that huge slug fest, I would like to call a truce and can we please approve the Annual Report on the committee has done an excellent job on this 50<sup>th</sup> Year Celebrations, and then we can move on to discussing the accounts, otherwise we are getting lost in the accounts in the Annual Reports is all confusing me like many others. Moreover, voting has begun, and I am sure all these are ready to go and run over there, thank you.

President called Mr. H. C. Thimmaiah

**Mr. H. C. Thimmaiah, INDT015:** He said Mr. President, Dignitaries on the Dias and my dear fellow members, I am not a finance man, but I am only an Architect. I will not discuss the finance part of it. But I would rather appreciate the wonderful work that this Committee has done on the Course, excellent Course, all my compliments to these people who are sitting here who used the money for the betterment of the Golf, prime members like us enjoy every minute of it in this Course. My compliments once again and keep it up well done sir, all the best, God bless you all.

**President** said this is the last speaker and we will put it to vote after withdrawing these two points.

**Mr. P K Appachoo, INDA091:** He said Mr. President, dear Friends, I won't take too much of your time. I request you to look up Page No. 28 of this. There in the middle of the page, there is this Land Lease Rent you will notice that there has been a 100 percent increase, from Rs.50.00 lakhs to Rs.100.00 lakhs.

**President** said yes sir that is because the income of the club has increased. We must pay a percentage accordingly sir.

**Mr. Appachoo** said I will come to that. This is because of the bad drafting of the original agreement. The drafting, what I mean is, there should have been a Clause to say that the Lease Rent shall not exceed Rs.5 lakhs, Rs.10 lakhs, Rs.20 lakhs, R.30 lakhs, say shall say, lease rent shall not exceed Rs.50 lakhs. Please say, the lease rent shall not exceed, whatever you want to say, by not having those words inserted in this Agreement, the sky can be the limit for the payment of lease rent. Next, here if our revenues have gone up, this Rs. 100 lakh comes to Rs.200 lakhs, normally lease rent is paid, and you increase by 5%, increase by 10%, 20%, not 100% overnight.

**President** said sir the lease Agreement was signed and accepted by the members, right now we can't go back on that. However, your point is understood, and can we just move forward as Mr. Harish Shetty has one point and after that take this to vote?

**Mr. Appachoo** said you can always ask the Government for a fresh agreement, that is my suggestion, Thank you,

**President** said thank you, sir.

**Mr. Harish Kumar Shetty, INDS234:** A couple of small clarifications -

- 1) Regarding Member-Elect being considered into the number of the total members. I don't know, maybe the auditors also may have the same in this regard. According to my understanding, a Member-Elect happens in a committee meeting and there is a clearly defined time when they become member-elect and then they are allotted a number and they continue to use that number even after they become a permanent

member. Now when they must qualify subsequently six months later or one year later, you don't have a mandatory clear-cut period when they become members separately once again. So, in my view, it is better to continue the old process of member-elect being treated in the number count that you have said, please consider it, or maybe please discuss it with the auditor also.

- 2) Now the second point is about the Standing Committee and the Sub Committee, Finance Committee, and Standing Committee is co-terminus with the term of the committee. Whereas the standing committee is a permanent standing committee, which has got a framework of how the members are being elected that has also been passed by the General Body. So, they need to have 6 members and 2-2 automatically retire by seniority and to be reappointed. So there is no Mix up of the Finance Sub Committee and Investment Sub Committee into one, please treat these two as completely separate, while there is no water-tight compartment to say that, one should not be there in the other committee, it is preferred that these two are separate, kindly look into it and the vacancy what is there right now, please give a timeline before which you will appoint the people to the Investment Subcommittee, let them do their job whenever the SGM/AGM permits them. Thank you.

**President** said Thank you, sir.

President said so can we adopt the Annual Reports by taking out two points - one is what Mr. B. Dhirendra talks about the frisking and the second is Dr. M.G. Bhat's Note, so those who are not in favor, can you please raise your hands?

President said OK it is passed. Thank you.

**The Annual Report of the Committee for the year 2022-2023 was taken as confirmed and adopted by taking out the portion of 'frisking of members/staff and Dr. M.G. Bhat's Note'.**

**Proposed by: Mr. G D Bagri, INDB097**

**Seconded by: Mr. B. Sreenivasa Murthy, INDM234**

### **3. To Adopt the Balance Sheet, Income and Expenditure Statement, and Auditor's Report for the period ending 31<sup>st</sup> March 2023.**

The President said the floor is open for discussion.

**Mr. Kishore Rao, INDK291:** He said Dear Mr. President, Captain and Members of the Managing Committee and Respected Members,

Firstly, compliments on the completion of your tenure and good progress on the financial front, especially getting higher yields on deposits, and resolving legacy issues

related to GST and some Income Tax claims. Also, I think the best year, in respect of revenues improved from Rs.14.7 crores to almost Rs.23.00 crores, an increase of 54% that is nothing short of phenomenal. So, you should give them a big hand. But you have done a tough job, but you get very little compliment so, here is one.

**Members applauded the Committee.**

**President** said thank you, sir.

**Mr. Kishore Rao** said that we are still not operationally profitable while the operational deficit is not come down as depreciation here as shown in improvement here from -Rs.2.4 crores in the Financial Year 2021-2022 and -Rs.46.00 lakhs in 2022-2023. I think it is somewhat camouflaged by the lost profit from mutual Funds accumulated from the last three years amounting to Rs.6.33 crores. If this was done on an annualized basis, then the operating deficit would have been –Rs.4.5 crores, net by Rs.23 crores approximately. In addition to this, we had some Rs.1.50 crores on bunker works on the Course, which was for some reason shown as exceptional items instead of coming under Course maintenance. Moreover, we had an emergency spent of Rs.1.00 crore in loss due to flooding of the premises that is something beyond anyone's control, so that is fine. But even taking that out, the operational deficit is Rs.4.5 crores + Rs.1.5 crores bunker = which is a total of Rs.6.00 crore minus on an annualized basis. Ladies and Gentlemen, it is a huge amount, it is a huge number. Another good way to assess our financial health history of the last four years, see page 28. CAGR compounded revenue growth of the last four years was 10.4%, if not for the last 4 years, the current 2023-year jump of 54% it was flat on the last previous 4 years, right? So, this year has given it a boost, with all that still only 10.4% compounded. In comparison, our expenses on a compounded growth basis are grown 22%. What does that mean? Over the same period, it has grown from Rs.16.00 crores to Rs.35.70 crores, in four years. Yes, you heard it right that is more than double. If we continue at this rate, our expenses will double in the next four years to Rs.70.00 crores per year. This is not wishful thinking, it is going to happen if we don't control our expenses and somebody, I think Mr. Bagri raised about creating budgets annually; we don't do that, we don't do variance analysis, we have exceptional items of Rs.2.00 crores a year. If you look at the last four years, you will see that. Exceptional items, every year Rs.2.00 crores. So, this is a scary possibility, alright? At the same time, people talk, and my friends say we have Rs.125 crores interest and will take care of it. The interest earnings have compounded only 7.6%, you can see it again on Page No. 28. For those who think that interest earnings will save the day for us, Ladies and Gentlemen, you need to think again; it has not happened. Today's Rs.1.00 crore of interest now at 6% you must have additional Rs.16.00 crores of deposit and if our expenses are doubled in the last four

years and it is going double in the next four years if we don't take control, we are going to be in serious trouble. So, in other words, our expenses are going far more than our earnings, more than a factor of two (double). Simply put, we are living far behind our needs. So how do we address this widening gap? I have four suggestions; one is long term and three are short-term:

- 1) We talked about Club House; I don't know what a Club House is all about. But I think we need to put a building at least 50 guest rooms with amenities like Meeting, Banquet areas, Spa, Gym, F&B, basement for Car parking, etc., Most clubs generate very good surplus and profits from such a facility. It should not be difficult to cover two or three acres of our land to have a classy building and we have very competent and accomplished members from projects and construction business to make this happen. We also have an ample cash reserve of Rs.124 crores approximately and we can use part of this for this Project. Last year alone, construction costs have gone up by 30%. It will be fair to say that this will almost double in the next five to seven years. I would urge the incoming committee to set up a Special Task Force to explore this feasibility and look at the possibility of implementing it in a very quick time, that is a long-term one.
- 2) For the short-term one I will get the booed and hooted out here but let me put it on the table anyway. Green fees for playing members. We have a World class Golf Course, and the cost of keeping this ship-shape cost annually, FY 2023 it was Rs.7.00 crores we have spent on maintaining the Golf Course and keeping it in a ship-shape, which is necessary that's our life and blood and we play for free. All Golf Playing members, I think, the Committee should consider putting a nominal green fee of Rs.200/- per round, considering we barely get the timesheet to play anywhere on this wonderful Golf Course. The next will be a small price to be paid to maintain our upkeep of the Course and enjoy our world-class golf course experience and back-of-the-envelope calculations tell me that we can get Rs.70.00 lakhs here with zero expenses.
- 3) Honorary Membership for Life Members - I do not know what the number is. It is a great addition, and I am also one of the beneficiaries of it. But I am sure many of us can afford to pay that subscription, it is nominal. But if all the members must pay that monthly subscription, they should get an additional Rs.50.00 Lakhs annually, maybe more.
- 4) People have mentioned about the Bar at revenue of Rs.6.7 crores, and a surplus on the very meagre amount of Rs.52,000/-. We should plan our target of a surplus of a minimum of 10% of revenue, very reasonable I think where we should get another Rs.60.00 lakhs here.

So, add it all, we can generate an additional income of Rs.2.00 crores without raising a sweat, if you all agree. It is right there in front of us. We can do it and hopefully, the rules projects come on stream the balance deficit also can be hopefully bridged over the next two to three years.

Before I close some small observations on the Financial Report, in the last Financial Year repairs and maintenance have shot up to 227% from Rs.1.48 crores to Rs.3.36 crores. Power and Water expenses may be logical, has increased from Rs.76.00 lakhs to Rs.1.32 crores, again an increase of 73%. Remember our revenue of course has grown by 54% in the last four years, only 10% growth. Finally, there is also a provision for Income Tax for whopping Rs.2.80 crores. Income Tax provision, considering we never made a surplus for the last many years, and I wonder how this provision was there in the first place, I don't know what the dispute is.

I hope the observations and suggestions given can be taken up with due consideration by the Incoming Committee. Members of the Committee, Ladies and Gentlemen, thank you very much for your time and kind attention.

**Members applauded Mr. Kishore Rao.**

**Mr. M.S. Siddaraj, INDS041:** He said Mr. President just apart from the Accounts, I cannot see the faces of these candidates, you really want them here.

**President** said as per our rules, they are expected to be here.

**Mr. M.S. Siddaraj** said, "because I cannot see their faces, they are itching to go because that has been the practice for quite some time, if you are okay with it, let them go.

**President** said the reason is being that others also seated here, and they must be seated here. We are not forcing them, sir. If they want to go, they can go, we cannot force them to stay here.

**Mr. M.S. Siddaraj** said if they want to go, they can go now.

**President** said sir as per the Rules, the Chief Electoral Officer has sent a mail to all the candidates standing for election, earlier and that is the Rule that he has put across to all of them and they all are aware of it, it is not that they are not aware of this.

**Mr. M.S. Siddaraj** said my only point is, if it is according to the Rules or if it is according to the

**President** said yes sir, it is there in the Rules.

**Mr. M.S. Siddaraj** said it only said they are not supposed to do canvass.

**President** said let the Chief Electoral Officer decide on this sir, let him bring it out.

**Mr. M.S. Siddaraj** said the General Body will decide now.

**President** said OKAY those who are not in favor of them leaving; please raise your hands.

**The majority of the Members were in favour of the candidates leaving the Meeting Hall. President informed the candidates to leave the meeting hall, if they wish.**

**Mr. M.S. Siddaraj, INDS041** - He said Dear Mr. President, Fellow Members, it looks like the interest what you are earning on our deposits, is only the saving factor for the club. This year we got about Rs.12.5 crores, including the profit whatever you have made on Mutual Funds as against the Rs.7.20 crores of the last year. Before we really investigate the Departmental performance, Mr. President, I would like to recall the statement that you made in the October 2022 SGM last year. You had said that all the departments from the Bar, catering to the entertainment, tournament, etc., are profitable, and all of them have shown profits. Even in the SGM of March 2023, just three months ago you said that all your departments are making profits, and if I remember right, you had even quantified the profits of most of the Departments.

**President** said - I said baring Course and Club House.

**Mr. M.S. Siddaraj** said I think you said almost.

**President** said no, I want to clarify that I did not mention all; and I said baring Course and Club House.

**Mr. M.S. Siddaraj** said almost is not all, that is what I heard.

**President** said it can be misconstrued, sir.

**Mr. M.S. Siddaraj** said Mr. President every one of us was really impressed that you and your committee could achieve profits in all the Departments which the earlier Committees could not do. We really appreciated that, and we clapped on both occasions. Now we have the audited Balance Sheet with us, let us see the operational performance. Mr. President, it appears that the Auditors have a different view than what you have projected. According to them, the net operational loss in this one year, I am repeating the operational loss in this one year is about Rs.13.00 crores. This is the operational loss in one year. I am only taking into consideration the operational revenue and operational expenses, I am not considering your depreciation, extraneous expenses, and the interest what you have earned on your deposits. As you all know that you know, all the business houses struggled to improve their profitability, struggled to improve their turnover, the reason being the improvement of the bottom line for

profitability. Whereas in our case, we see the higher the turnover and higher the losses. I will give you instances. Let me all go into the overall performances of the major departments after depreciation. The revenue from the Course last year was Rs.3.25 crores and this year it has gone up to Rs.4.00 crores. Last year we had a loss of Rs. 3.75 crores and this year the loss has gone up to Rs.5.48 crores in the Course itself. Take Club House, the revenue from the clubhouse compared to last year has gone up by Rs.78.00 lakhs, and the loss in one year is almost Rs.3.00 crores. This is what I said, the higher the turnover, the higher the losses. And now as most of the other members also have spoken about the Bar. On a sale of Rs.6 to Rs.7 crores, we have lost Rs.11.00 lakhs this year, i.e., after your depreciation and other expenses. The cash profit what you have made is about Rs.50,000/- on a turnover of Rs.6.7 crores.

**President** said this part I will explain to you, sir. In the Bar let me explain to you and the Course and Clubhouse.

**Mr. M.S. Siddaraj** said let me complete it, otherwise, it will become the question and answers. I will finish two points and then you can talk. We don't see the Bar losing anywhere else. PAN India, the Bars are managed by the Clubs themselves. They have a neat margin of 8 to 10 percent on the sales. Even at 8% and if I am not even going to the 10%, we should have a clean profit of about Rs.50.00 lakhs in one year. But we have lost Rs.11.00 lakhs that is after depreciation. Other clubs' rates are marginally lower than ours and still they make huge profits. In our case, neither the members benefit nor the club. What is happening here, Gentlemen? We only talk about this every year. Every year when June comes, we come and talk that the Bar is not doing well, and this is not doing well, and we keep repeating this every year. We request the Managing Committee to investigate this, but again we will talk about the same subject year after year. If you manage our Bar, there are two specific advantages according to me.

- 1) The Members get the Liquor at a much more competitive rate compared to other clubs.
- 2) The club makes the surplus like any other club, it is not going to be a new phenomenon for KGA.

Now let me just ask you, do you have any problem in case the Bar is run by the club? I am asking you if you all agree, can give clear directions to the Incoming Managing Committee to run the bar ourselves. If the new MC cannot run the Bar for any reason, let them come back to us in a month or two, we will form a committee here, as we have a Standing Committee on Investments. We form the Committee here and we run the Bar and show them how to run the Bar profitably. I am asking you, are you okay with this? Mr. President take this, probably you can ask the members. **Take this as a**

**Resolution of the General Body**, please record this as ‘**Resolved the Bar shall be run by the Club and shall not be outsourced**’.

**President** said let us put this on the vote, even to discuss. It is just a discussion I know that.

**Mr. M.S. Siddaraj** said it is my suggestion. One more thing Mr. President the enthusiasm what we are showing in spending is not there in the receivables. We all remember we have lost more than a crore in the floods; this was about nine months ago. I also know that you have preferred the insurance. Have you received that?

**President** said not yet, sir.

**Mr. M.S. Siddaraj** said do you think we really need nine months to recover the Insurance Policy amount.

**President** said we have submitted our claims, the Inspector has come and assessed the damages, etc., and he has also done that, but we must wait for the reimbursement or the refund from the Insurance Company. We are working with them; it is not that we are not interested. We are working with them to get it resolved.

**Mr. M.S. Siddaraj** said I would only say that if you had told us that it is our claim, probably we would have acted much faster.

**President** said let us not attribute reason, sir. I think it is a very unfair statement to say that we are not interested in getting the claim or the money back.

**Mr. M.S. Siddaraj** said in our personal affairs, we would have acted faster.

**President** said if you don't know the reason, don't attribute the reasons, sir.

**Mr. M.S. Siddaraj** said you can explain that whatever. Other major Departments I don't want to go more into detail.

Now have you seen the KPL accounts? Yes, it was a very successful tournament. When the KPL started in the year 2019, the amount collected was Rs.78.00 lakhs and we had spent Rs.53.00 lakhs on the Tournament and the club had a surplus of Rs.25.00 lakhs. This year you have collected Rs.1.57 crores, exactly double. Believe me, you have spent Rs.1.50 crores on the KPL Tournament in a single tournament alone, leaving a small margin of about Rs.7.00 lakhs to the club. Mr. President, we in the S&P Committee have specifically said, which was accepted by the General Body that 30% of the amount collected at KPL should come to the club. Even at 30% on that Rs.150 lakhs, the club should have got Rs.45.00 lakhs instead of Rs.7.00 lakhs. Mr. President, when none of your major Departments have made any profits, how did you say, that

too repeatedly that most of your departments are making profits, now if you want you can clarify.

**President** said in terms of the Bar, you must understand that we have started filing our Income Tax Returns as a Charitable Trust and as a Charitable Trust we are not allowed to gain a profit from the Allied services. You are a Chartered Accountant I am sure you know that our Chartered Accountants are here, and our Auditors are here, and they will answer your query on that. So let us not go into that because this is something that we need to follow to get some benefits from it. There are certain institutions like BCCI, Karnataka State Billiards Association, etc., which are following the same practice and we are also following the same practices here, which is the right way for the club to move ahead. That is what I said, now in terms of the Bar. We cannot show a profit in the Bar because it is not associated as a benefit towards the game of Golf. If you have any further points, our Chartered Accountants are here, and they will answer your questions.

Now in terms of the Clubhouse, we had floods, we had a lot of damage internally; secondly the last time that any work was done, or any painting was done was in the year 2017; this being our Golden Jubilee year, that is the reason why we did a lot of repairs, maintenance plus a lot of the paintings, primarily because of the fact that we also had G-20 meet etc., coming up and we need to show a good Club House facilities to the visiting Dignitaries and Energy Ministry from different countries were coming here, this is the primary reason why lot of expenses have gone up in the Club House.

In terms of the Course, we had a lot of repairs, we did a couple of bridges were repaired in the club; the stormwater drain we had a major issue with the sewage coming in from the Amar Jothi layout, we had our MLA who also came and made sure to get all these things done. These are the reasons why the expenses have gone up. It is not something that we wantingly did, but these were required by us to do.

**Mr. M.S. Siddaraj** said, “what about the KPL?”

**Mr. President** said KPL the reason that we have spent a little bit more is because of our Golden Jubilee Year. We felt that we should give back a lot to our members more than what we have done earlier. Captain has also us assured that going forward we will keep at least 25% of the corpus that we have received in terms of sponsorship and collections from the owners for the club.

**Mr. M.S. Siddaraj** said Mr. President whatever you have now said on the floor, it could have been a part of the Annual Report, so that most of us would have understood.

President said sir, also like to share one point is that in terms of the Driving Range also, a lot of things had to be done because we had safety issues with our neighbors, so we

had to erect Nets, poles, etc., and there was no drainage in lot of the greens in the Driving Range – Short game are, as well as in the Bunkers, every time it rained water was stagnating, that was the reason in-house project had to be done and we carried out these projects and that is the reason why these expenses have been incurred. Second, also in terms of the Bar, expenses have been apportioned into the Bar which are electricity, cleaning charges, consumables, printing charges, and other maintenance charges also have been added.

**President** said Mr. Austin Roach, Hon. Treasurer wants to add a point.

**Hon Treasurer** said as far as the Bar sale is concerned, out of Rs.6.7 crore, 2% of the top line goes to our KSTDC billing. So, on the bottom line, it is about 6 to 7%. We have outsourced the Bar maintenance, for better maintenance and better governance on the monthly fee is 18% as GST is charged which is against 7% of the bottom line. These are the two exceptional expenses which are taking away the profits of the Bar.

**Mr. M.S. Siddaraj** said Mr. President my only point is if there is a possibility why I am raising this issue. If there is a possibility of showing a better performance in one Department or two Departments try to do that, because this is not the forum to explain the Income Tax intricacies to the general members.

**President** said sir you have asked for it that is the reason why we are explaining it, you have said we have not made a profit in the Bar, that is why I am trying to explain to you why.

**Mr. M.S. Siddaraj** continued and said only one point. Mr. President as per Rule No. 21.3.1 – the committee should prepare the revenue and capital budget within 60 days. I know that you have done it and it was also on the Notice Board. The Revised Revenue Budget, I think sometimes you have done in October 2022 or whatever, what is the operational loss you have shown there of about Rs.7.08 crores in your budget, that is the figure I got from the office. This was the budget approved by the MC, based on the projection given by the Chairman of each department. The same Rule 21.3.1 clearly says that the committee shall adhere to these budgets. Let me also refer to Byelaws 24.6 – that the Treasurer shall be responsible for the financial health of the club, he shall closely monitor the income and expenditure of all the departments and ensure those are within the budget plan presented by the concerned department Chairman at the beginning of the year. If you had followed your own budget which you had presented and got it approved by the Managing Committee, you think you would have ended up with Rs.13.00 crores operational losses. You had projected Rs.7.8 crores and ended up with 13.00 crores. This would not have happened if you had strict budgetary control. Did you and your committee clearly violate any of these Byelaws rules which I have already mentioned and the decisions of the General Body?

Now, let me just conclude if each and every Committee starts making such huge operational losses where will the club go in the next couple of years? June every year, a few of us come and speak here, I think this has become a ritual. The outgoing President assures that the Incoming Committee will investigate this, and this repeats every year. The Committee will come and go, but most of the problems would remain. This is precisely what we wanted to prevent when we made S&P Committee Report. Let me just conclude I have the following suggestions for your consideration: -

No managing committee shall incur the cash loss and shall manage the affairs of the club within the available resources, including the interest income. This is strictly adhered to the Capital and Revenue budgets. Any over end in the budget shall be with the prior approval of the General Body. The S&P Reports which have already been approved in the previous General Body shall be implemented completely, including the required amendments to the Rules.

Gentlemen, I look forward to your views, if you agree we can pass this as a Resolution and request the Incoming MC to investigate this strictly. Thank you very much.

**Mr. K. Chandraprakash, INDC007:** Mr. President, first, I am not a finance man, but I would like to say that I am a practical man. A lot of discussions have gone on about the performance of the Committee and the financial figures. This brings into focus the budget which the Committee must prepare and put on the Notice Board within two months. You know the directions, and we as members will know where you are going and what you are going to achieve, or you don't achieve. For instance, we went through this budget for Capillary bunkers; you did not take the permission of the General Body, which you spent about Rs.1.3 to Rs.1.6 crores. It is not up to the mark. I know a lot of members are here, who have damaged their clubs and had an injury in their elbow because the stone was coming up. When I asked one of the Committee members, they said there is a guarantee or warranty period for that. I have not seen anybody from the company coming and doing the rectification work. These kinds of projects should not be taken up by the Committee. When you have a budget, you stick to that. I know you all are not people with professional; you cannot spend too much time on this. This is a passion for you. But then please think that the money you are spending is the members' money. So have a budget, so that is what I wanted to tell you. The other request I want to make, Mr. Kishore Rao, Mr. Siddaraj, and Mr. Bagri have made a few suggestions, very good suggestions on how to save money and how to also earn money. So, I would request the Incoming President Mr. Suresh to keep these gentlemen in mind and use their services and use their expertise to see the institution benefits. Thank you.

**President** said thank you, sir.

**Mr. Khul Bhushan Oberoi, INDO010:** Good evening Honorable Committee and the Members. On this floor for the last two hours, I think the issue is of the balance sheet and the Byelaws have been laid threadbare. Yes, I am not capable of talking about

those subjects there and I am talking about the other side of the coin which is the quality of our club in all aspects. The subject matter which was just discussed five minutes ago is that the Bar should be taken over by us. We have run this Bar for several years with pilferage and booking the losses in the balance sheet which nobody sees. Now here we have a Vendor whom we must be paying up-front, and that person has brought a certain quality of service, and I am proud to entertain my guests here. I am not proud to entertain my guests in many other clubs of our elite City. Why, because I think there is professionalism behind that, and the Professionalism comes with a little price. So, whether we make a loss or profit on our Balance Sheet or are we booking our losses in our previous years which nobody saw, nobody questioned. I have had occasions here and I would not name it. Several years ago, you come with your guest and at 8.30 pm you are sitting with your guest and the waiter does not know which foot to stand on, do we want a club like that. Are we not proud of the quality of the clubs and services as far as his services are concerned? Why are we looking only at the Balance Sheet, only for figures? You are all not accountants and you are all not Lawyers, neither am I. But I happened to be a food man and I know that there are qualitative changes in our club in the last three to four years whether you agree or not. I will not stretch upon this point. (ii)The second point, let us go away from that; we are today struggling to find playing time. It is the fraternity which is at risk here because I can give an example if four thirsty people are sitting at a table having one bottle of drinking water between them and one who is the quickest to grab to finish it. Now is that a fraternity? We have come to that stage as far as booking the slots is concerned. I have made a couple of suggestions to the Committee, not as a form of Resolution, but in the background, several other people have made the suggestions look like nobody wants restrictions of time, restriction is a very negative word. But you must find a certain system that we have a playing field here. I have suggested that you put a certain nos. of points in people's pockets, we spend that point every time we come onto the Tee Box. When the points are exhausted certain slots will get released; everybody will get a chance, but what has happened in the last couple of years? Two years ago, on the floor here trying to bring up the same point, I was shouting down as if I were in a fish market, I think that is a shame. I think, we as golfing brothers and golfing friends here, we have equal rights to play. It is the Committee which must find, and they have to consider certain suggestions made by members, somebody will have to give something to others to gain something, and it cannot come without a price. Thank you. I have taken a lot of your time. Thank you very much.

**Mr. B.N.S. Reddy, INDR215:** He said yes, many of the points have already been told and I will be brief -

1) Why are all the Departments running under loss?

- 2) See coming to the Budget for the year 2022-2023 which this Committee itself had projected an operational loss of around Rs.7.00 crores. But today you have ended up with around Rs.14.00 crores (Rs.13. something crores). What I would like to ask is if every Committee shows for the next 10 years this kind of budget where it is approved it is your own budget of Rs.7.00 crores and operational loss of Rs.14.00 crores; in 10 years, your Rs.150 crores which is there in the kitty will vanish. And a day will come, I am not frightening you, but this is a fact; a day will come KGA will not have a single rupee if this Rs.150.00 crore is gone. In that Rs.150.00 crores, you have Rs.60.00 crores which belong to the members in waiting. Tomorrow, if the Government or somebody freezes the membership that we had enough we do not have anybody even to play, because now, if I am not tech savvy, I will not get even 20 slots in a year and that being the case if members decide to freeze the membership, no more membership, you have to return Rs.60.00 crores back to the members. Then what happens is your interest will come down and this Rs.14.00 crore operational loss which you have shown, even including Rs.150.00 crores will disappear in 10 years and that is the first point that I would like to suggest.
- 3) The Second is Bar. Why I am telling Bar. See many people did say, last year in the very forum I did say that I also happened to be the President of a neighboring club, I HAVE BEEN A PRESIDENT FOR ALMOST 16 YEARS, AND EVERY YEAR, YEAR AFTER YEAR I PLACE IT ON RECORD THAT WE HAD MADE A PROFIT OF RS.30.00 TO RS.50.00 LAKHS EVERY YEAR. ... **interrupted by President ...**

**President** SAID SIR I WOULD LIKE TO DISPUTE THAT; YOUR PROFIT IN INDIRA NAGAR CLUB IS IN DISPUTE. I WILL SHARE YOUR BALANCE SHEET WITH THE CHARTERED ACCOUNTANT WHO WOULD SAY YOUR PROFITS ARE NOT THAT MUCH.

**Mr. B NS Reddy continued** and said one second, if you say that you are a charitable institution, I do not understand, what is charitable institution has got to do with the bar, because when you are keeping a 30% profit margin.

.... **Interrupted by President ....**

**President** said as I said the Balance Sheet of Indira Naga Club in terms of Bar is not in terms of what you are trying to portray.

**Mr. BNS Reddy** continued and said I am not talking of that now. If it is a charitable institution you must sell at the same price, why are you keeping a 30% profit margin? If you think, this is a charitable organization you must sell at the same price, why are you keeping 30% profit?

**K. Chandraprakash**, said Mr. President, I beg to intervene now, and you have given enough time, I think you as a chairman you can curtail his speech because we have heard enough of all these subjects. The General Body had spent a lot of time, we want to go and cast our vote and we have confidence in you.

**President** said thank you, sir.

**President** said Mr. B. N. S Reddy, let now stop sir.

**Mr. BNS Reddy** said I will wind it up what I would say is ...,

**President** said you are misleading the General Body here sir,

**Mr. B.N.S. Reddy** said this Charitable Institution is misleading, let them enlighten because the Supreme Court Order is also there; you just check what Supreme Court Order says, whether you are eligible to come under charitable institution because there is already a judgement in this regard, and it is a public document.

**President** said sir the BCCI is fighting the case in the Supreme Court, sir we all are aware of the case sir. Thank you, sir.

**President** said as we must bring up the Member's Resolution, Mr. Praveen Singhvi you will be the last speaker, sir.

**Mr. Praveen Singhvi INDS257:** He said my only suggestion is that we are talking about the Balance Sheet, I see a lot of members explaining. Let them come to the Committee and give suggestions. It was only on the balance sheet points and we see all the members were coming and explaining their minds, everybody can do it. Let us restrict that, restrict to the Balance Sheet, and move forward. My only suggestion is why can't we raise the membership of each category, which is not being done?

**President** said sir in the last SGM we brought up this subject. However, Mr. B.N.S. Reddy had different ideas on that.

President said Mr. F R Singhvi wants to speak as I understand now and after that, we will close with this sir.

**Mr. R. Dhirendra, INDD089:** He said I think enough has been said on this topic. All of us, most of us, come from professional backgrounds and when you take up these positions, these are honorary positions, at times your abilities might not be able to match what is required for the kind of post that you take up. All of us have been part of very large organizations in the social service business, and in every such organization, individuals who wish to stand for elections must undergo two days training programme to understand how the organization works even before they stand for the election. There are handing over incoming and outgoing teams' hand over.

There are budgets that are circulated well in advance based on that, you do your planning. Some alerts are created month-wise, especially on financial issues, where you take it up to ensure that you are in that line, and if anything goes wrong, there is a committee that advises you. There are enough experts in this place, so lots of discussions happen and a lot of things happen, I don't think this club will not be closed down in 15 years, 50 years when you are still not there, but if we put systems in place and we put the trigger that you use in your profession because we all run our companies, my prices have not gone up, my turnover has gone up; but still I show a profit of 20% that means something is going wrong or something is going right in the running of the organization, and in the same way, this club has to be run, with zero compromise on quality. Thank you.

**President** said thank you, sir, your point is well taken.

**Mr. James Sundar Raj, INDR253:** I am extremely sorry that you could tell Mr. B.N.S. Reddy that he is misguiding, and I am extremely sorry, it is not a misguide, it is available on records. I only request you, instead of telling like that one, please try to put the suggestions what Mr. Reddy has given, and Mr. Siddaraj and all others have given, putting all those things into practice will be a great help to the association.

**President** said the balance sheet of Indiranagar Club is with me I can give it to any chartered accountant to look into it. Whatever it is sir, you should know what it is there. So, we will go with Mr. F.R. Singhvi. This is the last speaker, please.

**Mr. F. R. Singhvi, INDS218:** I heard from Mr. Siddaraj and others, I agree with a lot of points that they have made. But we need to understand two things – (i) like Dharendra said they are all passionate people spending their time, and they are not professionals; (ii) the second thing is as they don't have enough time which is one year period. And most of the work in any organization, including this, must be done by the people, that the team we have. And for the team to have we need to have the right kind of people and for that we need to pay them the right kind of salaries. Today if we must look at creating a Finance Department in this organization, your salaries will go up by 10X to 15X. Now the point is do we need this, or do we look at its holistic manner. Mr. Siddaraj, Mr. Bagri, myself, and I have been involved so much in all these activities. I have been part of this Committee for so many years. Is anything really wrong being done by the Committee in trying to run the Club? E.g., the Internal Audit Team, are there any serious things that are found out? There were certain issues, whether the action was taken, reasons for appointing Contractor was one of those things to the pilferages, direct involvement of Committee members, all was a question mark that is how the Contract came. What is lacking today is certain policy documents, e.g., Bar everybody is talking about. What is the Policy of the Bar that we need to have;

what is the costing that we need to have; what are the activities of the Bar that need to contain, for example, I know in some other clubs, bottles are sold to the members and then a huge profit made on them. So, if anybody takes that this is the landed cost of bottles and this is how we are going to add up and do this, you need to get to ascertain the cost.

Secondly, like what the Hon. Treasurer was saying that they are trying to create, based on the advice given by the super experts on Charitable organizations, they have asked you to show activities not relating to Golf as not your profit-making activity. It is a question of allocation that probably the Auditor and the Team have done this year. This year I was not on the Finance Sub Committee, so I will not be part of it. So, all I am saying is that holistically the Committee has to put in adequate checks and controls on them by the Internal Auditors, Statutory Auditors, and by and large I think the activities that go on in the club, all of us know what is happening. They may not have taken approval for a certain budget. All that I would have asked the Committee this year, half the questions would have been avoided. They had given a budget. Budget is always subject to change, I have a well-established company, a listed company and I can tell you my budget changes 3 to 4 times in a year. The whole thing is becoming so dynamic. If the budget was given, revision is made from Rs.7.00 crore to Rs.12.00 crore, all that Committee had to do was to explain this is the reason for my budget of Rs.7 crores, unfortunately, it has become Rs.12 crores, because of these activities have to overshoot and these the reasons why I overshoot, or these are the activities which were not budgeted at that time, which has come forward. I think it is more of, probably doing a little more on the proposal and a lot of suggestions came on the accuracy of the Report. Yes, I think we probably need to have some extra person, a professional person, just for doing this work of the budget report. I spent a few lakhs to create an Annual Report for my company and I can tell you I can find ten such mistakes which can be highlighted. So facts and numbers, sometimes trying to do so many activities together, there will be 10 to 12 mistakes, but I am asking the General Body, holistically whether this club has done well in the last couple of years and particularly last year, in the 50<sup>th</sup> Year, have the Committee put in their efforts, to whatever extent I was involved with this Committee, I think they have done a great job. With the Internal Auditors and Statutory Auditors, improvements are possible. I would suggest, in fact, like Mr. Siddaraj and others who are very experienced, you should create a cost-based activity. If you look at the entire P&L account, most of the expenditures they don't have control over, whichever Committee comes. The major expense is salaries. In salaries I have seen in the last five years, the number of employees has come down. But can it be done better, yes. But individual cost-based is what is the cost the club incurs on each member, I think that a member has to know, whether we pay for it or not is a different

matter. But today everything in the whole deficit looks as if the Committee is inefficient. But if you really do a cost-based, the service I can get from the club is equivalent to what it will cost, then what is the club costing? It is a huge deficit as the number of club members have increased. Thanks to the Government insisting on it.

There must be an extra deficiency because every member creates a deficiency; the more we use, the more deficient is created. But should we charge or not, fine, I think a proper cost-based study can be done by the new Committee, appointing professionals or one or two members who are totally keen and committed to this, to at least give certain directions. Let us know if the loss is there, that's it. Let there be transparency even on the cost that we pay and the benefits that we get. I think that is the major point that we need to understand; Bar, Catering - we can have certain Policies, and document guidelines so that every Committee that comes in, they don't keep changing them. If they want to change it, they must get the Policy changed, that is what most of us are following in our companies and that is what I would suggest. I request all the members to pass the accounts with compliments to the Board. Thank you.

**President** said can I take the Accounts as passed?

**The General Body approved and passed the Balance Sheet, Income and Expenditure Statement and Auditors Report for the period ended 31<sup>st</sup> March 2023.**

**Proposed by: Mr. M.S. Siddaraj, INDS041**

**Seconded by: Mr. K. Chandraprakash, INDC007**

President thanked the Statutory Auditors for being with them in the meeting.

Both the Auditors left the meeting Hall at this point of time.

#### **4. To appoint Auditor to hold office for the ensuing year with their remuneration:**

**President** said the Managing Committee recommends the Appointment of Mr. NCS Raghavan and Company as Auditors for the year 2023-2024 on remuneration of Rs.3.50 lakhs against Rs.2.50 lakhs. Approval of the General Body is requested.

**The General Body approved the appointment of M/s. N.C.S. Raghavan and Company as Statutory Auditors at a remuneration of Rs.3.50 lakhs (Rupees Three Lakhs Fifty Thousand Only) for the Financial Year 2023-24 by show of hands.**

**Proposed By : Mr. Harish Kumar Shetty, INDS234**

**Seconded By : Mr. B.N.S.Reddy, IPS, INDR215**

## **5. Other resolutions, if any:**

President said we have received Two Resolutions proposed by Members for discussion at the Annual General Meeting under Rule 19.6.8 –

### **(1) The Resolution by Mr. Ramachandra Vellore, INDR457 -**

#### **Resolution:**

**1. Resolved that to maximize the number of slots available for members for golfing, propose the following changes be incorporated and approved by the General Body.**

**Shotgun starts on weekends and public holidays to be discontinued and changed to the normal timesheet.**

#### **Explanatory Note:**

Short gun permits  $32*2=64$  slots in two sessions.

Assuming 4 hrs. and 28 mts (including 9 mts break) stipulated to complete a round, the Normal time sheet starting at 05:45 am and ending at 2 pm permits 64 slots of 18 holes same as a short gun start. There is the added advantage of an additional 9 holes of 15 slots from T10 from 5:45 to 7:51. Besides 15 slots or more from T1 from 2 pm onwards.

Other disadvantages of Shotguns are:

- a) Non-availability of the car park at turnaround.
- b) Difficulty in getting caddies because of the short turnaround time.
- c) No flexibility for working members to have time of their choice on weekends.
- d) On shotgun days, rarely the course is open for walk-in members as the round goes beyond 5 pm

President requested the member, Mr. Ramachandra Vellore, to please come forward and speak on his Resolution.

President said can I share one point here in this respect. The Tournament Committee had also done a survey. Ok, your point is updated.

**Mr. Ramachandra Vellore, INDR457:** Good evening, Committee Members and Honorable Members of the General Body.

This is regarding you know what everyone was talking about, not having enough slots to play so I am not going to talk about it, basically trying to see whether more slots can be generated for members to play Golf. So, I have on the screen,

<b>SHOTGUN START (18 Holes)</b>	
No of slots	No of Golfers
2 sessions - 32 X 2 = 64	64 X 4 = 256
<u>Advantages</u> Start & end at the same time  <u>Disadvantages</u> Lesser playing slots Car parking Caddy availability No timing flexibility No slots for walk-in golfers	

<b>Time Sheet</b>		
No of slots	No. of Golfers	No of Holes
T1 - 5.45 - 2 pm = 64	64 X 4 = 256	18
T1 - 2 pm - 4 pm = 14	14 X 4 = 56	9 +
T10 - 5.45 - 7.51 = 15	15 X 4 = 60	9
	372	

If you see the short gun starts which is 32 slots in the morning and 32 slots in the afternoon, you see a total of 64 slots. In a tie sheet starting at 05.45 am to 02.00 pm, you have 64 slots and after 02.00 pm you have members coming to play right up to 4.00 O'clock and 5.00 O'clock playing 17 holes, 16 holes, 15 holes, and so forth. In the morning, back-nine 15 slots are there for members to play 9 holes. So therefore, while everyone is talking about having more slots required to play, we are curtailing the slots by having the shotgun as per the figures displayed on the screen and these are taken from the book published by the Tournament Committee. So, I would request the General Body to please pass my Resolution saying that shot gun not to be done during the weekend.

**President** said I just wanted to add a point here, we have as against 32 that you have mentioned, 32 people playing one session, we have 36 slots in each session sir, so the No. is different.

**Mr. Ramachandra Vellore** said I have taken it from the Book. If you have changed, you have not corrected that.

**President** said it is changed sir as I said over the last few months, it is 36 and 36.

**Mr. Ramachandra Vellore** said even if you take 36 x 72 i.e., 144 is what you are talking about.

**President** said yes sir. So, we have 288 people playing in a day sir.

**Mr. Ramachandra Vellore** said now you said 36, I don't see it in your book, your book says it is 32 slots, the figure that I have is that if you take a Time Sheet, you have 256 Golfers playing up to 2.00 O'clock and thereafter you have another 56 golfers playing up to 04.00 pm, playing may be 17 holes, 16 holes, 14 holes whatever it is, and 60 people playing 9 holes.

**President** said we have two Speakers at the back who would like to speak, one is Mr. Mayur Patil wants to speak and so can we allow him to speak first?

**Mr. Mayur Patil, INDP238** – He said good evening General Body and good evening, President and the Committee Members.

Thank you, member, for bringing this Resolution, but I will humbly submit one thing I don't think in my opinion this matter is for the AGM, and I think this matter should be among playing Golfers. This Committee in October 2022 had taken a poll among playing members and at that time the percentage of the shotgun was higher, so I request the next Incoming Committee to take another poll, may be a poll every six months, and ask playing members whether they prefer shotgun or Staggered, and then take it forward rather than discussing it in the AGM because most of the people are not here anymore, most importantly we don't know who is going to vote in the AGM, how many are really playing members here, so this is my sincere request that we don't go forward with this Resolution. Thank you.

**Members applauded Mr. Mayur Patil.**

**President** said thank you, sir.

**President** said Mr. Prashanth Sakhamuri

**Mr. Prasanth Sakhamuri, INDS250:** He said Mr. President, with this, I would like to support the Motion moved by Mr. Vellore. I think the whole shotgun system has put a lot of afternoon golfers, especially at a very high inconvenience. Basically, after afternoon golfers come in (i) you don't get car parking and (ii) the second part is that you don't get good quality food, and you then get pushed out, and then on top of that in addition to that basically you do not get a right hole to start your play. When you play a round of golf once a week, you would like to start at least from the 1<sup>st</sup> hole or

the 10<sup>th</sup> hole, there is a process of playing golf, not starting from some random hole 5, 6, 7 holes.

**Members applauded Mr. Prasanth Sakhamuri.**

**President** said can I make a small suggestion here!

**Mr. Prasanth Sakhamuri** continued and said this thing I know it does make a difference, overall, when you look at it, in terms of numbers 372 golfers getting a round compared to 256 rounds does make a big difference. Even last time when the poll was conducted in a very unscientific manner, where the people who were polled were only people from the morning golfers and it does probably have a benefit to some amount for morning golfers; but the afternoon golfers are highly, put out into some kind of inconvenience. Thank you for the chance to speak.

**President** said can I make a small suggestion; I leave it to the Incoming Committee to take a call on it and work out the best way.

**Mr. Ramachandra Vellore** said No, I don't agree with that I want this General Body to give their opinion whether they are for it or against it.

**President** said OKAY let us put it to vote. He said, Mr. M.P. Paul.

**Mr. M.P. Paul, INDP139:** He said I am for the Resolution. On certain days what happens is you have a tournament in the morning, so shotgun is the best situation in the afternoon. So, we leave it to the Committee, let them take a call, you can't say blanket - no shotgun, you can't do that. On certain rainy days, we start at noon, shotgun is the best option; weekends and holidays, I am talking about both, regressing a bit. Now I just wanted to give a tip to the Incoming President. Earlier what we used to do was before the AGM we used to meet up with many of these people who speak regularly at the AGMs and call them over, solve their, and clarify their doubts. By doing that what happens is we don't come here and waste time. We keep on talking, talking about the same point; call them earlier itself; bring them to the Committee Room and tell them to please sit down as friends, we also make a lot of mistakes, we have come forward and we asked you all the questions, you all clarify so that 50 or 60% of issues are sorted out. I think this can be done.

The last one, your Rule No.26.3 on canvassing, I think we need a relook. Thank you.

**President** said yes that is being done, sir. Thank you.

**President** said Mr. Abhijit Prasad and then we put this Resolution to vote, please.

**Mr. Abhijit Sathya Prasad, INDA426:** He said Good Evening, I just feel that right now a lot of Golfers are out there. There are not enough people here who play regular

golf during the weekend. So, I think taking a vote right now here would give a very squid result and I would request the President to stick to his words and let the Incoming Committee can take a call on this.

**Mr. F.R. Singhvi, INDS218:** He said I just have one clarification. If I know on every Saturday and Sunday for 18 holes, 24 or 36 Teams are playing in one session; can you please calculate  $36 \times 4 \times 2 = 288$ ?

**Mr. Ramachandra Vellore** said Mr. President I would request you to please put it to vote to the General Body.

**President** said as Mr. Abhijit Prasad said, we also need golfers here ...

**Mr. Ramachandra Vellore** said put it to the General Body does not matter who is there; tomorrow you will say only financial people have to be there ....

**President** said non-golfers, that is the only thing I said, nothing else.

**Mr. Prasanth Sakhamuri** said Mr. President if we get a strong commitment from the Incoming President that this would be properly investigated and taken forward, the Incoming President who is a unanimous position, he is sitting right next to you, let him put up his hand and say that he will give us a proper hearing and take this forward.

**Mr. President** asked is that okay with the General Body.

**Mr. Ramachandra Vellore** said that is not okay with me. I am moving the Resolution, which is not okay with me, I would like to put that to vote.

**Mr. Rahul Chatterjee, INDR436:** He said Mr. President somebody had made a very valid point that the regular golfers should also be part of this decision-making and some of them may be outside or whatever; my suggestion is please send out a mail to all members, get a poll and based on that poll the new Committee Mr. Suresh Jois Chandrashekar and others can take a call. I think that would be the correct way of doing it rather than the, I think the General Body is not the right forum for this.

**Mr. Kishore Rao, INDK291:** He said I am really shocked that we are even discussing Golfers and Non-Golfers here. We all have been elected members of this club because we are Golfers. Come on, let us face it. what is this distinction between golfers outside, and non-golfers sitting inside; what is this, it is ridiculous. You brought a Resolutions here and let us put it to vote. If it passes fine, if it does not pass okay.

**President** said Mr. Rajgopal Koushik and then we will put it to Vote.

**Mr. Rajagopal N. Koushik, INDK269:** He said I would just request that you just put that to Vote when more members are involved in this process, otherwise it is going to

be a bunch of people who are divided, and I don't think that will be fair on the Committee.

**President** said no sir, we will put it to Vote. He said to those who are in favor of this Resolution, please raise your hands.

**President** said we need our Chief Teller here to count the Votes.

Mr. Ramachandra Vellore Read out the Draft Resolutions:

***“The shotgun starts on weekends and public holidays be discontinued and changed to a normal Time Sheet”.***

**President** said those who are in favor of this Resolution, please raise your hands. He requested Lt. Col. Ravi Shanmugam, Chief Electoral Officer to help in counting the Votes.

A member objected to asking the Chief Electoral Officer to count the votes when they have appointed the Chief Teller and Tellers to count the votes.

**President** clarified that the Chief Teller is busy with the Election process outside. He requested the members who are not in favor of the Resolution to raise their hands.

**President said this Resolution is passed by majority, so I request the Incoming Committee to look into it.**

**Mr. Ramachandra Vellore** said thank you very much.

**The Resolution moved by Mr. Ramachandra Vellore, INDR457 ‘to maximize the number of slots available for members for golfing, proposes the following changes be incorporated and approved by the General Body.**

**Shotgun start on weekends and public holidays to be discontinued and changed to normal time sheet’ is passed by the General Body.**

**Resolution:**

**2. The KPL tournament be conducted starting no earlier than 1 May. The KPL auction and team selection should be held after 15<sup>th</sup> April.**

**Explanatory Note:**

September through mid-April is a pleasant season and should be available to members to enjoy their golf. Once KPL is announced, there is pressure for ordinary members to get around to play. Hence the KPL tournament schedule should start only after 15 April.

**Mr. Ramachandra Vellore** said he has another Resolution to help many of the old members. The KPL Tournament is to be conducted starting not earlier than 1<sup>st</sup> May, and the KPL Team selection should be held after the 15<sup>th</sup> of April, the reason being the best part of the year is between October to end of March and once the KPL is announced members don't get a chance to play at all. Therefore, this is a very prestigious tournament it could be conducted, but kindly move it out of the good season.

**President** said sir, there are a lot of logistic issues I understand from the Captain from April onwards, we have many other tournaments like Addicts, hence I would agree with you October to January is probably not the best time/season considering the Bangalore climate conditions, let us keep it February end onwards.

**Mr. Ramachandra Vellore** said, can we say beyond March at least?

**President** said to keep it from February onwards. We also must do our Course biannual maintenance and course renovation during this time, then these will get into conflict with tournaments. Hence, we need to make sure that the Course is in good condition for people to play.

**Mr. Ramachandra Vellore** said I am not adamant on the period, but I am only requesting on behalf of all the people, kindly move it out of the good season.

**President** said the good season is from October to January, in terms of the weather. let us look at KPL Tournaments at the end of February 2024 onwards. That is fair enough for you, I am talking about your resolution.

**Mr. Ramachandra Vellore** said not for me, for the members.

**Mr. Prasanth Sakhamuri, INDS250:** He said KPL is probably one of the most important Tournaments this Club has been having and it is also one of the tournaments which gets the maximum amount of fellowship in this Institution. We are basically, it is a group of Golfers out here and we enjoyed the rounds of Golf, it is something that should get the pride of place and it should be given the right position where it gets the right publicity and the way it has grown, more and more people are playing KPL. It is getting bigger and bigger. We are more than 700 people who are involved in some form or the other, in addition to this not just the fellowship but also in so many other ways, all around it. The whole club runs around this whole tournament, and it should not be just kicked around to some middle-of-the-year tournament, especially at the end of committee year, or then you have overlapping, pushed into the middle of the monsoon, and have a whole disruption. The whole event should be played with the maximum amount of attention, so please do not try to disrupt this as a Tournament. Thank you.

**President** said thank you, sir.

**The modified Resolution moved by Mr. Ramachandra Vellore ‘that the KPL tournament be conducted starting by end of February onwards’ is passed by the General Body.**

**Resolution:**

**3. Slots reserved for tourists at 12.21 on weekdays and T18A on weekends be abolished. This will free up 6 slots a week. Alternatively, there should be transparency in allocating this slot.**

**Explanatory Note:**

Reservation of a slot for tourists was done when there were no slots reserved for the tourism dept. Now that 5 slots each day from Tuesday to Saturday and 3 slots on Sunday are reserved, this reservation is irrelevant. Moreover, this slot is being misused.

**Mr. Ramachandra Vellore** said I am withdrawing the above Resolution 12.21.

**Mr. Ramachandra Vellore, INDR457, Proposed Resolution No. 3 ‘Slot reserved for tourists at 12.21 on weekdays and T18A on weekends be abolished. This will free up 6 slots a week. Alternatively, there should be transparency in allocating this slot’ is WITHDRAWN.**

**President** said got the last Resolution Proposed by Mr. C.P. Rangachar, INDR065

**(2) Resolution Proposed by Mr. C.P. Rangachar, INDR065 –**

**Resolution:**

**Resolved that a 3-member Committee be formed to work out equitable golfing opportunities for playing members.**

**Explanatory Note**

There are over 1000 golfing members and most of them are unable to get a slot for playing. The online booking is almost impossible to get it must be completed in under 4 seconds. The manual booking is very inconvenient for senior members as it involves either a very early morning visit to the club for a morning slot or waiting 2 - 3 hours for the afternoon slot.

**Mr. C.P. Rangachar, INDR065:** I think many members have voiced serious problems in being able to play golf. There are many people who have stopped playing golf completely. As mentioned by some of the members from this podium today, there

should be an opportunity for everyone to play golf. I am not saying that there should be restrictions on others. But at least those who are members of this club should be able to play in this club. What is the point in having a membership for 30 years and 40 years and not being able to play here and having to go all over the world to play Golf, rather than going to play in your own club, after being members for 30 years and 40 years? You don't get a chance and you expect people like us to come at 3.00 a.m. and wait for two hours to get a slot one week later. Is it a Golf club or a member's club? Is it something where you must come at midnight to book a slot, something like black marketing? I think there should be an equitable system where everyone gets to play, at least maybe one round or two rounds of golf in a week. So, my suggestion is that a three-Man Committee should be formed, which must be given the task of making the proposal to be put for consideration to the Managing Committee. Thank you.

**Mr. Kishore Rao:** said I have one quick point, not related to the Time Sheet, but that is an important one. I think we should have Time management on the Course. I played the Founders Cup after four holes two hours had passed for four holes two hours; but somehow from 5<sup>th</sup> hole, it speeds up. I think some study needs to be done and this is on regular days also; the first four holes take late forever. Somebody must make a deep study and find out why and figure out why only the first four holes, it is really a problem. 4 (Four) holes, two hours is just unacceptable.

**Mr. Rangachar** asked the President what about his Resolution and what happened.

**President** said I am sorry sir, yes, the Incoming President has agreed and assured us that he will form a 3 people Committee to investigate this, and can I put the Resolution to vote, please.

**President** said those who are in favor of this resolution please raise your hands.

President said this Resolution is passed by a majority and it will be looked into by the Incoming Committee.

Mr. Rangachar said Thank you, sir.

**The Resolution moved by Mr. C.P. Rangachar, INDR065 "that a 3-member Committee be formed to work out equitable golfing opportunity for playing members' is passed by the General Body.**

## **6. To elect the Managing Committee for the ensuing year.**

President said meeting is adjourned till the Election Results are announced.

**AGM resumed at 9.30 pm.**

The Chief Electoral Officer Col. Ravi Shanmugam, announced the results of the election as mentioned below:

The following Office Bearers/Committee Members have been elected to the Managing Committee for the year 2023-24 at the 48<sup>th</sup> Annual General Meeting held on 30<sup>th</sup> June 2023:

		<b><u>NO. OF VOTES</u></b>
<b><u>PRESIDENT</u></b>		
1. MR. SURESH JOIS CHANDRASHEKAR	ELECTED	UNOPPOSED
<b><u>CAPTAIN</u></b>		
1. MR. ARUN BAJAJ	ELECTED	837
2. MR. AUSTIN ROACH	NOT ELECTED	526
<b><u>HON. SECRETARY</u></b>		
1. MRS. ROOPA PRATAP	ELECTED	686
2. COL. C.P. NANJAPPA	NOT ELECTED	677
<b><u>HON. TREASURER</u></b>		
1. MR. RANJAN BISWAS	ELECTED	588
2. MR. SATISHCHANDRA NAIK. N	NOT ELECTED	427
3. MR. N. SUNIL KUMAR	NOT ELECTED	348
<b><u>COMMITTEE MEMBERS</u></b>		
1. MR. HARI R. ACHANTA	ELECTED	1191
2. MR. SANJAY G. MATHIAS	ELECTED	1180
3. MR. MADHUR SOOD	ELECTED	1106
4. MR. NISHANT RAMESHGURJER	ELECTED	1089
5. MR. VIJAY M.R.	ELECTED	983
6. MR. JYOTI SWARUP	ELECTED	919
7. MR. J.M. SWAMY	NOT ELECTED	862
8. MR. PETER PREM	NOT ELECTED	848

President thanked and congratulated the newly elected members of the Managing Committee for the year 2023-2024.

He thanked the members and declared the meeting as closed.

By Order of the Managing Committee,

*Roopa Pratap*

**ROOPA PRATAP**  
**HON. SECRETARY**

## KARNATAKA GOLF ASSOCIATION
